Actuarial Memorandum

For

Individual Major Medical Forms TIM.POL.DC, 253, 554

Individual Major Medical Forms JIM.POL.DC, 376

District of Columbia

A. PURPOSE

This is the annual rate filing for the District of Columbia. The purpose of this rate filing is to demonstrate the reasonableness of benefits in relationship to premiums, or, if required, more specifically that the anticipated loss ratio of this product meets the minimum requirement of the District of Columbia. This rate filing is not intended to be used for other purposes.

This filing applies to grandfathered and non-grandfathered policies. Grandfathered plans are defined as plans effective March 23, 2010 or prior. Non-grandfathered plans are defined as plans effective after March 23, 2010. The non-grandfathered plans will be discontinued as of their first plan year/renewal dates on or after January 1, 2014.

B. DESCRIPTION

Forms TIM.POL.DC, JIM.POL.DC, 253, 376, and 554 are Guaranteed Renewable (as defined under HIPAA) Individual Major Medical issued to individuals under age 64 and their families. Coverage beyond age 65 will be secondary to Medicare.

Premiums are on an attained age basis and will increase with age. Premiums also vary by underwriting classification and geographic area. Additionally, premiums will reflect selected benefits under the policy, such as product type, deductible, coinsurance parameters, accidental medical expense, office copay feature, PPO product and network, drug card features, optional maternity, and term life coverage.

Policies will be marketed through general agencies, brokers, wholesale arrangements, and direct to consumer.

C. BUSINESS PLAN

The renewal period is assumed to start December 1, 2013. The premium rate will vary by month of issue throughout the renewal period based on our quarterly trend.

D. RATE CALCULATION METHOD

The premiums for Forms TIM.POL.DC, 253, 554, JIM.POL.DC, and 376 were developed through a comprehensive analysis of company experience, using an actual to expected loss ratio method. The underlying premium scale was adjusted to the pricing period by the major medical trend assumption. Assumptions are detailed in section E.

E. ACTUARIAL ASSUMPTIONS

The following assumptions are used in the development of the proposed premium scale.

1. Morbidity

- a. National claims experience was compiled in determining our initial premium scale.
- b. Secular Trend - The effect that inflation, advancing medical technology and techniques, increased cost shifting and increased utilization will have on future claim costs are accounted for by an annual secular trend of 15% for major medical business. The trend assumption was developed from studies of company experience.

2. Lapse Rates

The current lapse rates assumed in our pricing model are as follows:

	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>	<u>6</u>	<u>7</u>	<u>8</u>	<u>9</u>	<u>10</u>
Lapse Rate	.41	.36	.30	.26	.24	.22	.21	.17	.17	.15

3. Expenses

Expenses as a percentage of premiums, reflective of average national lifetime levels, are accounted for our new business pricing methodology as follows:

General Expenses & Distribution Costs	15%
Taxes, Licenses and Fees	5%

<u>Managed Care Fees</u>	<u>3%</u>
Total Expenses	23%

4. Interest

A level 3.5% annual interest rate is assumed to be earned on the unearned premium reserve and claim reserve. These investment earnings are offsets to required premium.

5. Area Factors

Area factors remain unchanged.

6. Credibility

The experience shown in the projection for the District of Columbia is credibility weighted with nationwide experience. At the time of this filing, the credibility standard used was as follows:

$$\text{DC Credibility} = \sqrt{(\text{DC Life Months in 12 months experience} / 900,000)}.$$

The credibility assumption is consistent with the federal Minimum Loss Ratio (MLR) regulation 45 DFR Part 158 Interim Final Rule from December 1, 2010.

F. OPTIONAL BENEFITS

Optional benefits are available with this form. They include the following:

Doctor's Office Copay Rider. This rider provides benefits for doctor's office visits for an insured, payable at 100% after a copayment is paid.

Inpatient/Outpatient Access Fees. This rider provides options at three levels with the CoreMed/PAC Plan for copayments on inpatient days and outpatient surgeries.

Accident Medical Expense (AME) – Provides benefits for an injury due to a covered accident. AME is administered per injury/accident instead of a calendar year benefit. After AME benefits are paid, any annual deductible, coinsurance and copayments apply. *Discontinued – only available to policies that already have this option.*

Rx Benefit Option. CoreMed Plans have the option of drugs subject to major medical deductible and coinsurance (upon contract approval) or a \$500 deductible drug card with copayments on brand and generic drugs and coinsurance on brand name drugs. Under OneDeductible plans, drugs are subject to major medical deductible and coinsurance.

Term Life Insurance. Term life insurance will be offered in face amounts ranging up to \$200,000. *Discontinued – only available to policies that already have this option.*

Maternity Rider. This rider pays 100% of covered routine maternity services after the maternity deductible has been met. Certain exclusions apply. *Discontinued – only available to policies that already have this option.*

Optional Wellness for OneDeductible Plan. This rider provides \$500 per person each calendar year for preventive services. There is 12 month waiting period for this benefit. *Discontinued – only available to policies that already have this option.*

G. AVERAGE ANNUAL PREMIUM ESTIMATE

Single:	\$2,909
Family:	\$6,318
Combined:	\$3,387

H. ANTICIPATED LOSS RATIOS

The anticipated future loss ratio for 2014, which is calculated as the present value of benefits divided by the present value of premiums over the remaining life of the policy (approximated as 10 years), is determined to be:

72.5%.

Based on the information currently available, we believe this anticipated loss ratio equates to the 80% Medical Loss Ratio under the PPACA. The 80% minimum medical loss ratio (MLR) stated in the PPACA includes costs for healthcare quality in claims and subtracts taxes from premium, as well as other adjustments for the PPACA Health Insurer Fee, PCORI fee, 3R user fee, and Reinsurance fee.

I. CERTIFICATION

To the best of my knowledge and judgment, this rate filing is in compliance with the applicable laws and regulations concerning premium rate development of this state, in that benefits are reasonable in relationship to premiums.
