NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies**A. Accounting Practices**

The financial statements of Group Hospitalization and Medical Services, Inc. (GHMSI or the Company) are presented on the basis of accounting practices prescribed or permitted by the District of Columbia Department of Insurance, Securities and Banking (DISB).

The DISB recognizes only statutory accounting practices prescribed or permitted by the District of Columbia for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the District of Columbia Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the District of Columbia. The Company does not utilize any permitted practices.

For the years ended 2014 and 2013, there were no differences in net (loss) income and surplus between NAIC SAP and practices prescribed by the District of Columbia.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting practices requires management to make estimates and assumptions that affect the reported amounts in the accompanying statutory-basis financial statements and disclosures. Actual results could differ from those estimates.

C. Accounting Policy**Investments**

Investment securities are carried in accordance with valuation criteria established by the NAIC, i.e. stocks (other than investments in subsidiaries) are carried at fair value and bonds at amortized cost. Adjustments reflecting the, revaluation of stocks at the statement date are charged to unassigned funds (surplus), unless the adjustments are losses deemed to be other than temporary.

The Company periodically performs evaluations, on a lot-by-lot and security-by-security basis, of its investment holdings to evaluate whether any declines in the fair value of investments are other than temporary. This evaluation consists of a review of several factors, including but not limited to: length of time and extent that a security has been in an unrealized loss position; the existence of an event that would impair the issuer's future earnings potential; the near term prospects for recovery of the fair value of a security; and the intent and ability of the Company to hold the security until the fair value recovers. These reviews were conducted pursuant to the applicable Statements of Statutory Accounting Principles (SSAPs).

For equity securities and non mortgage-backed/asset-backed securities, the Company considers the various factors described above, including its intent and ability to hold the security for a period of time sufficient for recovery to its cost. Where the Company lacks the intent or ability, the security's decline in fair value is deemed to be other than temporary and the entire difference between fair value and cost is recognized in investment income, net.

For mortgage-backed and asset-backed securities, the Company applies SSAP No. 43R *Loan-backed and Structured Securities*. Accordingly, any non-interest related impairment related to mortgage-backed and asset-backed securities that the Company does not intend to sell and has the intent and ability to retain until recovery is recognized in investment income, net, with the interest related impairment recognized in capital and surplus.

For mortgage-backed and asset-backed securities where the fair value is less than amortized cost, and that are not deemed to have non-interest related declines, the Company has asserted that it has the intent and ability to retain the investment before recovery of its amortized cost basis. If such an assertion had not been made, the security's decline in fair value would be deemed to be other than temporary and the entire difference between fair value and amortized cost would be recognized in investment income, net.

For mortgage-backed and asset-backed securities, the difference between the projected future cash flows expected to be collected and the amortized cost basis is recognized as non-interest related other than temporary impairment (OTTI) in investment income, net. The Company uses its best estimate of the present value of cash flows expected to be collected from the security to determine the amount of non-interest loss. If fair value is less than the projected future cash flows expected to be collected, the interest related OTTI is recorded in capital and surplus.

NOTES TO FINANCIAL STATEMENTS

When determining the collectability and the period over which the mortgage-backed and asset-backed securities are expected to recover, additional considerations are made when assessing the unique features that apply to certain structured securities such as residential mortgage-backed, commercial mortgage-backed and asset-backed securities. These additional features include, but are not limited to: the quality of underlying collateral; expected prepayment speeds; current and forecasted loss severity; consideration of payment terms of underlying assets backing a particular security; and the payment priority within the tranche structure of the security.

Based on its evaluation, the Company has determined that there is no OTTI for bonds and stocks for the years ended December 31, 2014 and 2013.

Cash and Short-Term Investments

Cash and short-term investments consist of cash balances and short-term, highly liquid investments with remaining maturities of one year or less at the time of acquisition. Short-term investments are principally stated at amortized cost. In accordance with the Company's cash management policy of maximizing the amount of funds invested in income-earning assets, the Company routinely anticipates the timing and amount of future cash flows. This policy frequently results in the existence of negative book cash balances.

Bonds

Bonds consist primarily of U.S. Treasury and other U.S. government agencies securities, state and municipal securities, foreign governments securities (U.S. dollar-denominated), corporate bonds, mortgage-backed securities and asset-backed securities.

Bonds not backed by other loans are carried at amortized cost, except in cases where NAIC designation requires them to be carried at the lower of cost or fair value. Fair values for bonds are based on quoted market prices for the same or similar investments (refer to Note 20). Changes in admitted asset carrying amounts of bonds, aside from OTTI, are charged directly to capital and surplus.

Mortgage-backed securities that are included within bonds are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from external sources and are based on the current interest rate and economic environment. The prospective adjustment method is used to value all such securities (refer to Note 20).

Stocks

Investments in unaffiliated common stock, primarily in publicly traded index funds, are carried at fair value. The fair values for common stocks are based on quoted market prices (refer to Note 20). Changes in admitted asset carrying amounts of stocks, aside from OTTI, are charged directly to capital and surplus.

Redeemable preferred stocks are carried at cost, except in cases where NAIC designation requires them to be carried at lower of cost or fair value. Perpetual preferred stocks are valued using unit prices as reported in NAIC Valuations of Securities Manual except in cases where NAIC designation requires them to be carried at lower of cost or fair value (refer to Note 20).

Investment Dispositions

A primary objective in the management of the bond and stock portfolios is to maximize total return relative to underlying liabilities and respective liquidity needs. In achieving this goal, assets may be sold to take advantage of market conditions or other investment opportunities, as well as tax considerations. Sales will generally produce realized gains and losses. In the ordinary course of business, the Company may sell securities for a number of reasons, including, but not limited to: (i) changes to the investment environment; (ii) expectation that the fair value could deteriorate further; (iii) desire to reduce exposure to an issuer or an industry; (iv) changes in credit quality; and (v) changes in expected cash flow. For purposes of computing realized gains and losses, the specific-identification method was used.

Other Invested Assets

Other invested assets include the Company's member equity in its affiliate, CareFirst Holdings, LLC (CFH). CFH and its non-insurance subsidiaries are reported at their underlying audited GAAP equity. CFH's regulated insurance subsidiaries are reported at their underlying audited statutory surplus.

Risk Concentrations

Financial instruments that potentially subject the Company to credit risk consist primarily of investment securities and receivables. The Company receives advice through or assigns direct management of investments to professional investment managers selected for their expertise in various markets, within guidelines established by the Board of Directors. These guidelines include broad diversification of investments. Aside from the Federal Employee Program (FEP) discussed below, concentrations of credit risk and business volume with respect to commercial receivables are generally limited due to the large number of employer groups comprising the Company's customer base. As of December 31, 2014 and 2013, except for FEP, there were no significant concentrations of financial instruments in a single investee, industry or geographic location.

NOTES TO FINANCIAL STATEMENTS

Health Care and Other Amounts Receivable

Health care and other amounts receivable consists of pharmacy rebates receivable, advances to providers, amounts due from the Office of Personnel Management (OPM) under the FEP contracts (refer to Summary of Significant Accounting Policies – Federal Employee Program), and other miscellaneous receivables.

Prior to 2014, the Company established its own pharmacy rebate contracts and assumed the responsibility, with the assistance of a third party, for billing and collecting all pharmaceutical company rebates. Effective January 1, 2014, the Company entered into an agreement with a pharmacy benefit management company to provide pharmacy rebate management services including pharmaceutical manufacturer contracting and rebate billing. The Company accounts for pharmacy rebates in accordance with SSAP No. 84, Certain Health Care Receivables and Receivables Under Government Insured Plans (SSAP 84). Per SSAP 84, pharmacy rebates may consist of estimated amounts and billed amounts. Any estimated amounts shall relate to actual prescriptions filled during the three months immediately preceding the reporting date. Any billed amounts that have not been collected within 90 days of the invoice date shall be nonadmitted.

The Company has advances on deposit with certain regulated hospitals in the state of Maryland. These advances permit the Company to earn discounts of 2.25% and 2.00% of allowed inpatient and outpatient charges, respectively, by these hospitals. These provider advances are reported at their realizable value.

Property and Equipment Admitted

The admitted value of the Company's electronic data processing equipment and software is limited to 3% of capital and surplus as of September 30, 2014 excluding any electronic data processing equipment and net deferred tax assets. Electronic data processing equipment and software is depreciated using the straight-line method over the lesser of its useful life or three years. Depreciation and amortization expense for electronic data processing equipment is included as a component of general and administrative expenses. There have not been any changes to the Company's capitalization policy or the related predefined thresholds from the prior period.

Unpaid losses and loss adjustment expenses

The Company pays fees based upon negotiated contractual fee schedules to medical providers that provide physician and hospital services. The Company also negotiates contractual agreements with certain physicians and medical management groups to provide health care and ancillary services to its members. In addition, the Company has a contractual agreement with a pharmacy benefit management company to provide pharmacy benefits to its members. Cost of care is recognized in the period in which members receive medical services. In addition to actual benefits paid, cost of care includes the impact of accruals for estimates of reported and unreported claims, which are unpaid as of the balance sheet dates.

The liability for medical claims payable is computed in accordance with generally accepted actuarial practices and is based upon past claims payment experience, together with other current factors which, in management's judgment, require recognition in the calculation. The Company develops its estimates for medical care services incurred but not reported using an actuarial process that is consistently applied.

The actuarial model considers factors such as time from the dates of service to claims receipt, claims backlogs, seasonal variances in medical care consumption, provider rate changes, medical care utilization and other medical cost trends, membership volume and demographics and other factors. Depending on the health care provider and type of service, the typical billing lag for services can vary significantly. Substantially all claims related to medical care services are known and settled within twelve months from the date of service.

The Company regularly re-examines its previously established unpaid claims estimates based on actual claim submissions and other changes in facts and circumstances. Due to the uncertainties inherent in the claims estimation process, it is at least reasonably possible that the actual claims paid could differ materially from the amounts accrued in the accompanying balance sheets – statutory basis.

Premium Deficiency Reserve

Premium deficiency reserve represents the Company's estimate of the amount that the expected incurred claims, claims adjustment expenses and certain general administrative costs exceed the expected premiums earned for the remainder of the contract period of the Company's in-force policies. For purposes of calculating the premium deficiency reserve, contracts are deemed to be short duration and are grouped in a manner consistent with the Company's method of marketing, servicing and measuring the profitability of such contracts. Once established, the premium deficiency reserve is released commensurate with actual claims experience over the remainder of the contract period. The Company does not consider anticipated investment income when calculating the reserve. The most recent evaluation date of this reserve is at December 31, 2014. The premium deficiency reserve is recorded as an offset to premiums earned and is included in the aggregate health policy reserves. The Company recorded a premium deficiency reserve in the amount of \$5,890,000 and \$940,000 as of December 31, 2014 and 2013, respectively.

Medical Loss Ratio Rebates

The Patient Protection and Affordable Care Act (PPACA), and a reconciliation measure, the Health Care and Education Reconciliation Act of 2010, which the Company refers to together as the Health Reform Legislation, established minimum medical loss ratio (MLR) regulations that require payment of premium rebates (MLR rebates) to employers and individuals covered under the Company's comprehensive medical insurance if certain minimum MLRs (85% for large group, 80% for small group and 80% for individual under 65) are not met. The MLR rebates are measured by jurisdiction at the market segment level (large group, small group and individual under 65). As of December 31, 2014 and 2013, the Company did not record an MLR rebate accrual.

NOTES TO FINANCIAL STATEMENTS

Premium Stabilization Programs

Health Reform Legislation includes three programs designed to stabilize health insurance markets (Premium Stabilization Programs): a permanent risk adjustment program; a transitional reinsurance program; and a temporary risk corridors program. The Premium Stabilization Programs became effective on January 1, 2014.

The risk adjustment program is a permanent program and applies to certain individual and small group products. Under the program, each covered member is assigned a risk score based upon demographic information and applicable diagnostic codes from the current year claims data, in order to determine an average risk score for each plan in a particular state and market risk pool. The issuers whose pools of insured enrollees have lower-than-average risk scores will transfer funds to those issuers whose pools have greater-than-average risk scores. The risk adjustment receivable or payable, if any, would be included within the aggregate write-ins for other than invested assets or other liabilities and recorded as an adjustment to earned premiums. The Company recorded a receivable of \$26,200,000 due from CFBC at December 31, 2014. The Company was not able to determine a reasonable estimate for risk adjustment with external issuers due to lack of verifiable data. As a result, the Company did not record a receivable/payable amount due from/to external issuers at December 31, 2014.

The transitional reinsurance program is a three-year program that is funded on a per capita basis from all commercial lines of business including insured and self-funded arrangements. The Company recorded its estimated liability for the reinsurance contribution of \$34,745,000 for the 2014 plan year, of which \$933,000 was recorded as a reduction of earned premiums and \$33,812,000 was recorded as general and administrative expense in 2014. The allocable portion of reinsurance contribution liability that was related to the FEHBP is chargeable to FEP contract. The reimbursable amount for FEP recognized for 2014 is \$18,056,000. Only issuers of individual products are eligible for reinsurance recoveries from the risk pools. The Company included actual paid claims and an estimate of unpaid claims in calculating the receivable. At December 31, 2014, the Company recorded a receivable from the transitional reinsurance program of \$13,961,000 for paid claims and \$1,285,000 for unpaid claims, which are included within amounts recoverable from reinsurers and as a reduction of unpaid claims, respectively. These receivables are recorded as a reduction to cost of care.

The risk corridors program is a three-year program and is intended to limit the gains and losses of certain individual and small group qualified health plans. The issuers share risk with the federal government by paying/receiving amounts to/from the government based upon the ratio of their actual cost and target. Issuers are required to calculate the U.S. Department of Health and Human Services (HHS) risk corridor ratio of allowable costs (defined as medical claims plus quality improvement costs adjusted for the impact of reinsurance recoveries and the risk adjustment program) to the defined target amount (defined as actual premiums less defined allowable administrative costs inclusive of taxes and profits). According to the regulations, for the 2014 plan year, qualified health plans with ratios below 97% are required to make payments to HHS, while plans with ratios greater than 103% will receive funds from HHS. The risk corridor receivable or payable, if any, would be included within accrued retrospective premiums or aggregate health policy reserves and recorded as an adjustment to earned premiums. Based on the calculation considering any amounts receivable or payable from the risk adjustment program, the Company calculated a potential risk corridor receivable of \$4,690,000. There is a lack of clarity regarding whether the HHS will fund this program or will run the program on a budget neutral basis. As reports have indicated that the industry is in a net receivable position, the Company has determined that it cannot estimate the amount of risk corridor it will actually receive. For this reason the Company has not recorded a risk receivable. The Company recorded a risk corridors payable of \$620,000 at December 31, 2014.

Health Insurer Fee

Health Reform Legislation imposes an annual health insurer fee (HIF) on health insurers that write certain types of risk health insurance products which were effective January 1, 2014. The HIF is not deductible for income tax purposes. The Company estimated its liability for the HIF based on a ratio of the Company's applicable written premiums compared to the U.S. health insurance industry total applicable written premiums, both for the preceding calendar year. The Company recorded in full its estimated liability in general expenses due or accrued and general and administrative expense at the beginning of the year. The Company's 2014 HIF of \$45,743,000 was paid in September 2014. The allocable portion of the HIF that was related to the premiums for insurance provided through the FEHBP is chargeable to FEP contract. The reimbursable amount for FEP recognized for 2014 is \$29,838,000.

Revenue Recognition

Premiums are recognized as earned on a monthly basis for the period the health care coverage is in effect. Premiums received in advance represent prepayments of premiums for future health care coverage.

Uncollected premiums primarily represent unpaid amounts earned from insured groups and individuals. A provision is made for potential adjustments, which arise as a result of review by management.

The Company offers FEP claims processing services to another BlueCross and BlueShield plan that participates in the Federal Employee Health Benefits Program (FEHBP).

The Company earns a performance incentive, or FEP service charge, which is an amount determined and paid annually by BCBSA based on the performance of the Company. The amounts represent the Company's best estimate based on historical results.

The Company participates with other BlueCross and BlueShield plans in administering certain health care benefit plans of various national accounts. Administrative fees are generally recognized as earned and are recorded as a reduction of general and administrative expenses.

Administrative Service Contracts

NOTES TO FINANCIAL STATEMENTS

The Company has administrative service contracts (ASC) with certain customers, under which the Company earns fees for processing medical claims, and is reimbursed for the cost of such claims. The gross administrative fees earned from these administrative service contracts have been included as an offset to general and administrative expenses.

Federal Employee Program

The Company participates in the FEHBP with other BlueCross BlueShield plans. This program includes an experience-rated contract between OPM and the BlueCross BlueShield Association (BCBSA), which acts as an agent for the participating BlueCross BlueShield plans. In addition, each participating plan, including the Company, executes a contract with BCBSA which obligates each participating plan to underwrite FEP benefits in its service area. Premium rates are developed by BCBSA and approved by OPM annually. These rates determine the funds that will be available to the participating BlueCross BlueShield plans to provide insurance to federal employees that enroll with the BlueCross BlueShield FEHBP.

The excess of gross premiums for the life of the program over the charges for the life of the program on an accrual basis is considered the special reserve under the contract between OPM and BCBSA. Each year, OPM also allocates additional funds to a contingency reserve which may be utilized by the participating plans in the event that funds set aside from annual premiums are insufficient or fall below certain prescribed levels by OPM. Funds available to each participating BlueCross BlueShield plan, including the special reserve and the contingency reserve, are held at the U.S. Treasury, including amounts unused from prior periods. Any funds which remain unused upon termination of the BCBSA contract, after the claims run-out and reimbursement of allowable administrative expenses, would be returned to OPM for the benefit of the FEHBP. The BCBSA contract renews automatically each year unless written notice of termination is given by either party.

In accordance with the BCBSA contract, OPM holds the unused funds on behalf of the Company to provide funding for claims, administrative expenses, and other charges to the contract. The Company, along with other BlueCross BlueShield Plans who participate in the FEHBP contract, has an unrestricted right to draw funds being held in the special reserve for any valid claim or expense. BCBSA has reported the amounts being held in the special reserve as \$4,555,027,000 and \$5,752,350,000 as of December 31, 2014 and 2013, respectively. BCBSA has also reported the amounts being held in the contingency reserve as \$10,001,371,000 as of September 30, 2014 and \$9,745,087,000 as of December 31, 2013. Amounts incurred in excess of the total reserves held at the U.S. Treasury for the FEHBP would not be reimbursed to the Company.

Based upon formulas developed by BCBSA, the Company has recorded its allocable share of the special reserve being held by OPM as an asset, with an equivalent amount recorded as a rate stabilization reserve. The amounts are included in health care and other amounts receivable and aggregate health policy reserves, respectively. These amounts are \$638,165,000 and \$680,234,000 as of December 31, 2014 and 2013, respectively.

FEP revenue earned was \$1,927,120,000 and \$1,808,697,000 for the years ended December 31, 2014 and 2013, respectively.

FEP Operations Center

Service Benefit Plan Administrative Services Corporation (SBP) performs certain administrative functions as the national operations center for FEP under its ten-year cost-reimbursement contract with BCBSA. This contract was effective January 1, 2005 and expired on December 31, 2014. During 2014, SBP and BCBSA executed a new five-year cost-reimbursement contract effective January 1, 2015 with two three-year extension options.

The reimbursement of allocable costs under this contract is allocated to CFMI and the Company and recorded as a reduction of general and administrative expenses. OPM reimbursed the Company for costs in connection with this agreement totaling \$121,437,000 and \$115,513,000 for the years ended December 31, 2014 and 2013, respectively.

2. Accounting Changes and Corrections of Errors

Changes in Accounting Principles

In March 2012, the NAIC adopted SSAP No. 92 *Accounting for Postretirement Benefits Other Than Pensions, A Replacement of SSAP No. 14* (SSAP 92) and SSAP No. 102 *Accounting for Pensions, A Replacement of SSAP No. 89* (SSAP 102). These SSAPs adopt, with modification, the FASB Accounting Standards Codification 715 *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. The primary focus of SSAP 92 and SSAP 102 is to recognize the funded status of a defined benefit postretirement plan in the balance sheets. The SSAPs require elements of plan costs to either be recognized as expense components during the current period, or as adjustments to surplus with future amortization into expense. The SSAPs also eliminate the exclusion of non-vested employees in accounting for a defined benefit postretirement plan. SSAP 92 and SSAP 102 were effective January 1, 2013, with early adoption permitted and the ability to elect a ten-year phase-in period. The Company adopted SSAP 92 and SSAP 102 effective January 1, 2013, and recorded a decrease to surplus of \$2,174,000, net of taxes (refer to Note 12).

In June 2014, the NAIC adopted SSAP No. 106, *Affordable Care Act Assessments* (SSAP 106). SSAP 106 requires the estimated annual HIF established under Section 9010 of PPACA to be reported in special surplus for the year in which the HIF is based. The special surplus is reversed and the liability and expense are recognized in full once the entity provides qualifying health insurance in the applicable calendar year in which the HIF is payable. The guidance also requires the reporting entity to disclose certain information on the HIF amount reflected in special surplus in the data year and the impact on risk-based capital (RBC) had the HIF been reported as of the reporting date. The Company adopted SSAP 106 effective January 1, 2014 (refer to Note 1 *Summary of Significant Accounting Policies - Health Insurer Fee* and Note 22).

In December 2014, the NAIC adopted SSAP No. 107 *Accounting for the Risk-Sharing Provisions of the Affordable Care Act* (SSAP 107). SSAP 107 provides guidance for the accounting and reporting of various components of the Premium

Stabilization Programs established by Health Reform Legislation in the financial statements and requires certain disclosures. The Company adopted SSAP 107 effective December 31, 2014 (refer to Note 1 *Summary of Significant Accounting Policies – Premium Stabilization Programs* and Note 24).

Prepayment assumptions for single and multi-class mortgage-backed/other asset-backed securities are obtained from broker survey values. The Company uses IDC to determine the fair value for such securities.
- (2) The Company does not have any mortgage-backed/other asset-backed securities which are other-than-temporarily impaired where the Company intends to sell, or does not have the intent and ability to hold until recovery.
- (3) For the year ended December 31, 2014, the Company did not recognize OTTI in mortgage-backed/other asset-backed securities that the Company has the intent to hold, but does not expect to recover the entire amortized cost basis of the securities. At December 31, 2014, the Company did not hold any mortgage-backed or other asset-backed securities where the present value of cash flows expected to be collected is less than the amortized cost basis.
- (4) The following table shows the gross unrealized losses and fair value of the Company's mortgage-backed/other asset-backed securities with unrealized losses that are not deemed to be other than temporarily impaired, aggregated by investment category and by length of time that individual securities have been in a continuous unrealized loss position (*in thousands*).

9. Income Taxes

The Company is included in the consolidated federal income tax return of CFI. The federal statutory income tax rate for the Company is 35%. For federal income tax purposes, the Company benefits from a special deduction provided to

NOTES TO FINANCIAL STATEMENTS

certain BlueCross and BlueShield organizations under Internal Revenue Code Section 833(b) (the 833(b) deduction).

The 833(b) deduction results in the Company incurring income taxes at the Tentative Minimum Tax rate of 20%. As a result, the Company's income tax provision is reduced from the statutory rate of 35% to account for the benefit of the 833(b) deduction. The Company could lose the benefit of the 833(b) deduction in the future if there is a change in the tax law, if the Company ceases to be not-for-profit, if the Company's reserves reach certain levels, if the medical loss ratio does not exceed 85% as required under the Health Reform Legislation, or if certain other events occur. If the Company can no longer use the 833(b) deduction, the Company will incur federal income taxes at the statutory rate of 35%, net of available Alternative Minimum Tax (AMT) credits.

CFI has a written agreement, approved by the Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity which is a party to the consolidated return. The tax sharing agreement calls for allocation of current federal income tax liability to the Company on the basis of the percentage of the consolidated federal income tax liability attributable to the Company computed on a separate company basis to the total consolidated federal income tax liability. The agreement also provides that to the extent the Company's tax attributes (e.g., NOLs) reduce the consolidated federal income tax liability, CFI shall pay the Company for use of such attributes in the year utilized. Amounts due from the subsidiaries for federal income taxes are settled quarterly.

Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes.

Beginning in 2014, Health Reform Legislation imposed an annual HIF on health insurers. The HIF is a nondeductible permanent item for income tax purposes thus increasing the company's effective tax rate.

The Company is subject to examination by the Internal Revenue Service and state taxing authorities. In general, the Company's tax years 2011 and forward remain open under the statutes of limitation and subject to examination.

The Company is exempt from all state income taxes in the jurisdictions for which it is registered to do business.

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

Group Hospitalization and Medical Services, Inc. (GHMSI or the Company) is a not-for-profit company that provides a comprehensive array of health insurance and managed care products and services primarily through indemnity health insurance and health benefits administration. Other products and services include preferred provider and point-of-service networks, third-party administrator services and other managed care services. These products and services are provided to individuals, businesses and governmental agencies primarily in the Washington, D.C. metropolitan area, Northern Virginia and the state of Maryland.

The Company and CareFirst of Maryland, Inc. (CFMI) are both affiliates of a not-for-profit parent company, CareFirst, Inc. (CFI). These affiliates do business as CareFirst BlueCross BlueShield. The Company and CFMI hold joint interests in a holding company, CareFirst Holdings, LLC (CFH). CFH was formed on December 31, 2010 by contributed assets from the Company and CFMI. CFH's wholly-owned subsidiaries include First Care, Inc. (FirstCare), CFA, LLC (CFA), National Capital Insurance Agency, LLC, Capital Area Services Company, LLC (CASCI), and CareFirst BlueChoice, Inc. (CFBC) and its subsidiaries. CFH and its subsidiaries are owned 50.001% by CFMI and 49.999% by GHMSI. Since control over CFH operations is vested in CFI, GHMSI determined that neither GHMSI nor CFMI exercise control over CFH.

GHMSI's subsidiary, SBP, was created to operate the FEP Operations Center under a contract with BCBSA. SBP is 90% owned by GHMSI and 10% owned by BCBSA.

The Company's board approved target risk based capital range is 1050% to 1350% as of December 31, 2014.

As of December 31, 2014 and 2013, the Company's equity investment in CFH exceeded 10% of the Company's admitted assets. The financial information for CFH (GAAP-basis) is summarized as follows (*in thousands*):

	December 31	
	2014	2013
Total assets	\$ 1,443,770	\$ 1,239,474
Total liabilities	\$ 509,535	\$ 370,392
Members' equity	934,235	869,082
Total liabilities and members' equity	<u>\$ 1,443,770</u>	<u>\$ 1,239,474</u>

Summarized results of operations for CFH (GAAP-basis) are as follows (*in thousands*):

	Year Ended December 31	
	2014	2013
Net revenue	\$ 2,736,327	\$ 2,436,173

Net income	<u>\$ 46,170</u>	<u>\$ 72,990</u>

NOTES TO FINANCIAL STATEMENTS

The Company incurred certain costs on behalf of CFMI, including salaries, claims processing expenses, and professional fees. Similarly, certain costs were incurred by CFMI on behalf of the Company. As a result of an administrative agreement between the Company and CFMI, these amounts were allocated between the companies based on relevant statistical measures. Net charges to the Company for services performed by CFMI were \$125,958,000 and \$146,571,000 for the years ended December 31, 2014 and 2013, respectively. These allocations are included in general and administrative expenses.

The Company has an operating relationship with its subsidiary and CFH, whereby the Company provides administrative and corporate services for which expenses are allocated to the subsidiary and CFH under administrative agreements. Similarly, certain costs were incurred by the Company's subsidiary and CFH on behalf of the Company. Net charges allocated by the Company to the subsidiary and CFH under these agreements were \$80,316,000 and \$65,441,000 for the years ended December 31, 2014 and 2013, respectively. These allocations are netted against general and administrative expenses.

CFI performed a review and analysis of certain intercompany transactions with CFBC. The analysis identified services provided by the Company that should include a profit mark-up on the costs charged to CFBC. Total charges to CFBC for the profit mark-up by the Company were \$10,561,000 and \$8,933,000 for the years ended December 31, 2014 and 2013, respectively. These charges are recorded as a reduction to general and administrative expenses.

CFI performed a review and analysis of certain intercompany transactions with CASCI. The analysis identified services provided by CASCI that should include a profit mark-up on the costs charged to the Company. Total charges from CASCI for the profit mark-up to the Company were \$3,676,000 and \$3,667,000 for the years ended December 31, 2014 and 2013, respectively. These charges are recorded as an increase to general and administrative expenses.

The Company maintains relationships with brokers for CFBC and its subsidiaries. The Company pays broker commissions and incentives for both the Company and CFBC and its subsidiaries, and allocates a portion of these amounts to CFBC and its subsidiaries based upon relevant statistics. Total broker fees allocated to CFBC and its subsidiaries were \$131,355,000 and \$122,036,000 for the years ended December 31, 2014 and 2013, respectively.

The Company bears all of the out-of-network (indemnity) underwriting risk and CFBC bears the in-network (health maintenance organization) underwriting risk for certain fully insured point-of-service health care products. Cost of care for these products is charged directly to the Company and CFBC based upon the nature of the claims incurred. Premiums on these health care products are allocated between the Company and CFBC based on actual underwriting results such that the underwriting gain of the health care products, as a percentage of premiums earned, is shared equally between the two companies. Total premiums allocated from CFBC for these products were \$10,302,000 and \$5,474,000 for the years ended December 31, 2014 and 2013, respectively.

The Company blends the annual rate increases between the Company's preferred provider organization and CFBC's health maintenance organization products for certain large group accounts such that each product receives the same percentage increase. Effective April 1, 2014, the Company entered into an agreement with CFBC in which the cost of care for these products is charged based upon the entity which insured the underlying products. Premiums on these health care products are allocated between the Company and CFBC based on actual loss ratio results such that the loss ratio of these products is shared equally between the two companies. Total premiums allocated from CFBC to the Company for these products were \$39,637,000 for the year ended December 31, 2014.

On March 1, 1999, CFI issued a subordinated surplus note with the Company for \$167,000 and with CFMI for \$333,000. The notes are unsecured and bear interest at 6% per annum, payable in arrears commencing on the initiation date. No payments of principal or interest shall be made on the notes unless and until CFI has sufficient realized earned surplus to make such payment, after providing for its minimum required surplus, all required reserves and other liabilities. In December 2007, the notes were amended to extend the maturity date from January 16, 2008 to January 16, 2018. Principal on these notes, if not paid sooner, shall be due and payable on January 16, 2018. Both interest and principal payments require the prior approval of the Maryland Insurance Administration.

At December 31, 2014 the Company reported \$32,397,000 and \$42,737,000 as amounts due from and due to affiliates, respectively. These amounts are settled monthly.

11. Debt

A. – B. None

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. – D. Defined Benefit Plan & Information about Plan Assets

Prior to December 31, 2002, the Company maintained a qualified noncontributory defined benefit retirement plan covering substantially all full-time employees (the GHMSI Plan). Effective December 31, 2002, the GHMSI Plan merged with a qualified noncontributory defined benefit retirement plan maintained by CFMI (the CFMI Plan) to become the CareFirst, Inc. Retirement Plan (the CFI Plan). Although CFI merged the CFMI and GHMSI plans, it has committed to maintain separate recordkeeping of plan assets and benefit obligations so that it will comply with certain regulatory restrictions that apply to the Company and CFMI. Consistent with the standards for multiple-employer plan accounting, the Company and CFMI have accounted for their net pension obligations as if the plans remained separate. Employees hired on or after January 1, 2009, no longer participate in the CFI Plan. These employees participate in an enhanced 401(k) program.

NOTES TO FINANCIAL STATEMENTS

Based on the accumulated benefit obligation, this qualified noncontributory defined benefit retirement plan was 101.9% and 116.1% funded as of December 31, 2014 and 2013, respectively.

The annual contributions exceeded the minimum funding standards set forth in the Employee Retirement Income Security Act of 1974, as amended. The CFI Plan provides for eligible employees to receive benefits based principally on years of service with the Company and a percentage of compensation prior to normal retirement.

The Company also has nonqualified supplemental retirement benefit plans covering certain officers, which provide for these individuals to receive additional benefits based principally on compensation and years of service. These plans provide for incremental benefit payments so that total benefit payments equal amounts that would have been payable from the Company's principal retirement plans if it were not for limitations imposed by the Internal Revenue Service. The Company contributes to the nonqualified pension plans as benefits are paid.

The Company provides certain health care benefits for retired employees. The Company's postretirement benefit program provides for a specific credit amount, which may be used to purchase health insurance upon retirement. The credit amount is based upon the retiree's age and years of service with the Company. The Company contributes to the postretirement plan as benefits are paid.

The Company uses a December 31 measurement date for determining benefit obligations and fair value of plan assets.

The following table sets forth the obligations, plan assets, funded status, and amounts recognized on the balance sheet for the retirement plans, which include the qualified and nonqualified pension plans described above, and other postretirement plans described above (*in thousands*):

NOTES TO FINANCIAL STATEMENTS

The weighted-average assumptions used in calculating the net periodic cost and projected benefit obligations for all plans are as follows:

	Pension Benefits		Other Postretirement Benefits	
	2014	2013	2014	2013
Weighted-average assumptions used to determine net periodic benefit cost as of December 31				
Weighted-average discount rate ^(a)	4.70%	3.80%	4.60%	4.00%
Expected long-term rate of return on plan assets	7.25%/N/A ^(b)	7.75% / N/A ^(b)	N/A	N/A
Rate of compensation increase	4.00%	4.00%	N/A	N/A
Weighted-average assumptions used to determine projected benefit obligations as of December 31				
Weighted-average discount rate ^(a)	3.90%	4.70%	3.90%	4.60%
Rate of compensation increase	4.00%	4.00%	N/A	N/A

^(a) The discount rates used were based on an Aa yield curve for the years ended December 31, 2014 and 2013.

^(b) As of December 31, 2014 and 2013, the expected return on plan assets is 7.25% and 7.75%, respectively, for qualified pension benefits and N/A for nonqualified pension benefits.

The accumulated benefit obligation for the defined benefit pension plans was \$362,002,000 and \$319,572,000 as of December 31, 2014 and 2013, respectively.

The assumed annual rate of increase in the per capita cost of Pre-65 covered health care benefits was 7.50% as of December 31, 2014 and decreases gradually to 5.00% for 2025 and thereafter. The assumed annual rate of increase in the per capita cost of Post-65 covered health care benefits was 6.75% as of December 31, 2014 and decreases gradually to 5.00% for 2022 and thereafter.

Assumed health care cost trend rates have a significant effect on the amounts reported for health care plans. A one percentage point change in assumed health care cost trend rates would have the following effects (*in thousands*):

	1% Increase	1% Decrease
Effect on total service and interest cost	\$ 58	\$ (51)
Effect on postretirement benefit obligations	858	(758)

The following estimated benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the pension and other postretirement benefit plans for the years ending December 31 (*in thousands*):

2015*	\$ 23,293
2016	22,591
2017	24,610
2018	24,510
2019	24,804
2020 through 2024	133,224
	<u>\$ 253,032</u>

* The expected cash flow payments are based on, in part, the assumption that certain nonqualified pension plan participants, who are age 62 and older as of December 31, 2014, will retire in 2015.

The Company expects to make contributions of \$1,806,000 and \$1,468,000, respectively, to the pension and other postretirement benefit plans during 2015.

The Company adopted a new mortality table for the qualified pension plan and postretirement plan as of December 31, 2014. As a result, the Company recognized an actuarial loss of \$17,622,000 and \$2,521,000 within the pension and postretirement benefit obligation, respectively.

During December 2013, the Company implemented a change to the premium structure for the Pre-65 retirees of its postretirement plan. The change was accounted for as a change to its substantive plan. As a result, the Company recognized a gain from plan amendment of \$5,396,000 within the plan's benefit obligation.

Effective January 1, 2013, the Company adopted SSAP 102 and SSAP 92. For SSAP 102, the Company recorded the full transition liability of \$781,000 as a decrease to surplus. For SSAP 92, the Company elected the phase-in option for the full transition liability of \$14,595,000 and accordingly, recorded \$1,459,000 as a decrease to surplus. During the fourth quarter of 2013, the Company recognized the remaining transition liability of \$2,780,000. Therefore, the unrecognized transition liability at December 31, 2013 is \$0.

NOTES TO FINANCIAL STATEMENTS

The following table presents the impact on surplus from SSAP 92 (*in thousands*).

- (a) As of December 31, 2014 and 2013, other mortgage-backed and asset-backed securities are approximately 6% and 3% in residential mortgage-backed securities and 94% and 97% in commercial mortgage-backed/other asset-backed securities, respectively.
- (b) As of December 31, 2014 and 2013, common stocks are approximately 17% in domestic and international small cap value markets, 31% and 22% in domestic and international small cap growth markets and 52% and 61% in international large cap growth markets, respectively.
- (c) As of December 31, 2014 and 2013, the funds invest approximately 51% and 45% in domestic large cap equity index funds, 10% and 13% in domestic mid cap equity index funds, 24% and 30% in international value equity securities, and 15% and 12% in emerging markets equity securities, respectively.
- (d) This category represents investments in index funds that invest in commodities, U.S. Treasury inflation-protected securities (USTIPS), U.S. real estate investment trusts and natural resources companies.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash equivalents

The carrying value of cash equivalents approximates fair value as maturities are less than three months.

Fixed income securities

The fair value of U.S. Treasury securities is determined by an active price for an identical security in an observable market and is therefore classified as Level 1. Other U.S. government agencies securities, state and municipal securities, foreign governments securities, corporate fixed income securities, mortgage-backed securities and other asset-backed securities that are priced by independent pricing services using observable inputs are classified as Level 2. Observable inputs used for other U.S. government agencies securities include quoted prices for like or similar assets, benchmark yields, reported trades and credit spreads. Observable inputs used for state and municipal securities, foreign governments securities and corporate fixed income securities include quoted prices for identical or similar assets that are traded in an active market, benchmark yields, new issuances, issuer ratings, reported trades of comparable securities and credit spreads. The fair value of mortgage-backed securities and other asset-backed securities is determined by a cash flow model, which utilizes observable inputs such as quoted prices for identical or similar assets, benchmark yields, prepayment speeds, collateral performance, credit spreads, and default rates at commonly quoted intervals.

Equity securities

Publicly traded common stocks are valued at the closing price reported on the exchanges and are classified as Level 1. Equity investments in common/collective trusts, Department of Labor (DOL) 103-12 trust and real asset strategy investment fund where the net asset value (NAV) (sum of the fair value of its underlying investments divided by units outstanding) is determined by observable inputs on a daily basis but are not considered actively traded are classified as Level 2. The equity investments in common/collective trusts, DOL 103-12 trust and real asset strategy investment fund permit redemptions daily. The fair value of real estate investment fund where the NAV is determined by valuation techniques using unobservable inputs, including discounted cash flow analysis, is classified as Level 3. A redemption request of 45 days prior to the end of the quarter is required for unit redemption of the real estate investment trust fund.

There were no transfers between levels during the years ended December 31, 2014 and 2013.

NOTES TO FINANCIAL STATEMENTS

The preceding methods may produce a fair value calculation that may not indicate net realizable value or reflect future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting dates.

The table below summarizes changes in the fair value of the Company's Level 3 pension plan investments in a real estate investment trust fund (*in thousands*).

	Year Ended December 31	
	2014	2013
Beginning balance at January 1	\$ 13,085	\$ 11,324
Unrealized gains relating to instruments still held at the reporting date	919	1,120
Purchases	595	641
Ending balance at December 31	<u>\$ 14,599</u>	<u>\$ 13,085</u>

An important factor in determining the pension expense is the assumption for expected long-term rate of return on plan assets. The Company uses a total portfolio return analysis in the development of its assumption. Factors such as past market performance, the long-term relationship between fixed income and equity securities, interest rates, inflation, and asset allocations are considered in the assumption. Peer data and historical returns are also reviewed for appropriateness of the selected assumption.

The expected long-term rate of return for the qualified pension plan's total assets is based on the expected return of each of the investment categories, weighted based on the median of the target allocation for each class. The key objective of the pension asset portfolio is to meet the assumed actuarial rate of return while maintaining a diversified asset allocation.

E. Defined Contribution Plans

The Company sponsors a 401(k) plan for the benefit of all eligible employees. The Company contributes to this plan based on a percentage of employee contributions and recognized expenses of \$2,367,000 and \$1,703,000 for the years ended December 31, 2014 and 2013, respectively.

14. Liabilities, Contingencies and Assessments**A. Contingent Commitments**

None.

B. Assessments

NOTES TO FINANCIAL STATEMENTS

In the jurisdictions in which the Company is licensed to conduct business, guaranty associations have been created for the purpose, among others, of protecting insured parties under health insurance policies when a health insurer becomes impaired, insolvent, or fails. The Company is contingently liable for assessments in any calendar year, in order to provide any required funds to carry out the power and duties of the associations. These associations levy assessments, up to prescribed limits, on all member insurers in a particular state on the basis of the proportionate share of the premiums written by member insurers in the line of business in which the impaired, insolvent or failed insurer is engaged. Some states permit member insurers to recover assessments through full or partial premium tax offsets.

The Pennsylvania Insurance Commissioner has placed long-term care insurer Penn Treaty Network America Insurance Company and one of its subsidiaries (collectively, "Penn Treaty") in rehabilitation, an intermediate action before insolvency, and has petitioned a state court for liquidation. If Penn Treaty is liquidated, the Company and other insurers may be required to pay a portion of Penn Treaty's policyholder claims related to their jurisdictions through guaranty association assessments in future periods. The Company is currently unable to predict the ultimate outcome of, or reasonably estimate the loss or range of losses resulting from, this potential insolvency because the Company cannot predict when the state court will render a decision, the amount of the insolvency, if any, the amount and timing of associated guaranty association assessments or the amount or availability of potential offsets, such as premium tax offsets. It is possible that in future reporting periods the Company may record a liability and a premium tax offset receivable relating to Penn Treaty which could have a material adverse effect on the Company's financial statements.

C. Gain Contingencies

None.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits

None.

E. Joint and Several Liabilities

None.

F. All Other Contingencies

CFMI and the Company entered into an intercompany agreement that requires CFMI or the Company, or their respective affiliates, to provide the financial resources necessary to satisfy the respective statutory or regulatory reserve requirement, subject to specific limitations, if either CFMI or the Company or their respective affiliates fail to meet or maintain their respective statutory or regulatory reserve requirement as required by law, or if such transfer of financial resources is needed to satisfy any other legally enforceable obligation.

CFI has a commitment for a credit facility with a commercial bank under which certain of its affiliates, including the Company, may borrow up to a maximum amount of \$60,000,000. There have been no draws made on this line of credit during 2014 or 2013.

Various lawsuits, including class action lawsuits and other claims, occur in the normal course of business and are pending against the Company. The Company records reserves for such matters when a loss is deemed to be probable and estimable. Management, after consultation with legal counsel, is of the opinion that the lawsuits and other claims, when resolved, will not have a material adverse effect on the accompanying statutory-basis financial statements; however, there can be no assurance in this regard.

The Company insures individuals and provides administrative services to non-risk groups with members who are qualified Medicare beneficiaries. Medicare law identifies the primary payer and secondary payer of claims when individuals are insured by either the Company or an employer and Medicare. Principally as a result of information systems programming errors, the Company incorrectly paid certain claims predominately related to its insured members in years prior to 2009 as the secondary payer rather than as the primary payer for individuals that were insured by the Company. The issues were communicated to CMS in May 2009. The Company has implemented corrective measures to (1) correctly identify Medicare beneficiaries that should be paid primary and (2) modify information systems to correctly adjudicate claims on behalf of Medicare beneficiaries.

In 2009, CFMI, GHMSI and CFBC provided CMS with the data of the incorrectly paid claims for the period from January 1, 2006 to December 31, 2008 and offered to settle its obligations to CMS for \$19,000,000. Accordingly, CFMI, GHMSI and CFBC recorded a liability of \$19,000,000 at December 31, 2009 for this proposed settlement, of which \$9,885,000 was recorded by the Company. The Company received demand letters from CMS regarding certain of these individual claims during 2010 and 2011. No demand letters were received in 2012 or 2013. Based on the claims processed in response to these demand letters and its ongoing evaluation of the Company's liability for this matter, the Company released a portion of the reserves that had been established in 2009 at December 31, 2012. During 2013, CMS made a settlement offer of \$16,054,000, which represents the total liability established in 2009 minus the amount paid to date from the demand letters processed in 2010 and 2011. As a result, the Company re-established a portion of the reserve that was released in 2012 to restore the liability back to the settlement amount offered by CMS. Accordingly, the balance of the liability is \$8,440,000 as of December 31, 2013, and is included in general expenses due or accrued. The final settlement amount of \$8,434,000 was paid in February 2014.

During 2012, the Company discovered an unrelated processing error related to the handling of claims for Medicare members of certain non-risk groups between the years from 2009 to 2012. This error was promptly corrected once identified by the Company. As a result, CFMI and GHMSI recorded a liability of \$4,800,000, of which \$1,143,000 was recorded by the Company representing the Company's best estimate of its portion of liability to CMS at December 31, 2012. At December 31, 2013, the liability was reduced to \$721,000 after the Company completed its review of the claims data related to this liability. In 2014, the Company revised its estimate and recorded an additional liability of \$540,000.

NOTES TO FINANCIAL STATEMENTS

The balance of the liability is \$1,261,000 as of December 31, 2014, and is included in other liabilities. The Company's management believes, after consultation with legal counsel, that the final resolution of this matter will not result in additional material liabilities to the Company.

On December 30, 2014, the District of Columbia (District) Department of Insurance, Securities, and Banking (DISB) issued an order in which it concluded that GHMSI's RBC of 998% at December 31, 2011 was excessive, and that the appropriate RBC was 721%. The order states that 21% of GHMSI's surplus is attributable to the District. The order also states that GHMSI must submit a plan to the DISB for dedication of its excess 2011 surplus attributable to the District to community reinvestment in a fair and equitable manner. On January 22, 2015, GHMSI submitted a motion with the DISB requesting the Commissioner to reconsider this order. This motion was denied by the Commissioner on January 28, 2015. In the denial, the DISB granted GHMSI an extension to file its plan until March 16, 2015. On January 29, 2015, GHMSI filed an appeal with the D.C. Court of Appeals. GHMSI believes that the DISB did not properly apply the statute. On February 10, 2015, GHMSI filed a motion to stay any further proceedings while the appeal is pending. GHMSI expects to renew this motion with the D.C. Court of Appeals if it is not granted.

In addition, on February 10, 2015, the Maryland Insurance Commissioner issued an order instructing GHMSI not to reduce or distribute its surplus or to file any remedial plan in D.C. until Maryland had concluded an examination of the effects of the DISB order. The Virginia Bureau of Insurance is conducting its own examination of the effects of the DISB's December 30, 2014 order, but has not yet issued any orders to GHMSI.

There is no present instruction to GHMSI to pay any sum of money, and there will be significant additional proceedings before any remedial plan is adopted. Those proceedings include the appeal of the December 30, 2014 order, potential Federal challenges by Maryland and Virginia if the December 30, 2014 order is not modified, and proceedings to determine the contents of any remedial plan. GHMSI has considered the instructions within the order and all pertinent information through the date of issuance of the financial statements to determine if a loss contingency accrual should be recorded. Currently, the effect of any remedial plan upon GHMSI in terms of dollars is uncertain, given that GHMSI's RBC has decreased since December 31, 2011. Since that date, GHMSI has engaged in significant community reinvestment and suffered significant losses on business in the District which has reduced its RBC. GHMSI's requirements to consider the instructions of its regulators in Maryland and Virginia, and the pending legal decisions that will occur at a future time, coupled with the decline in RBC since the December 31, 2011 measurement date in the DISB December 31, 2014 order, combine to create substantial uncertainty as to whether a contingent liability exists at December 31, 2014. Therefore, GHMSI has concluded that it is not probable that a loss has been incurred. GHMSI has also concluded that a reasonable estimate of loss cannot be determined at this time. GHMSI will continue to monitor the developments in this matter which may require a reconsideration of whether a loss contingency should be recorded at a future date.

15. Leases**A. Lessee Operating Lease**

The Company leases certain administrative facilities, including its corporate offices, and equipment under operating leases. Some of these lease agreements contain escalation clauses for increases in rental rates over the life of the lease. These leases expire on various dates with renewal options available on many of these leases.

Future noncancelable minimum payments for leases are as follows (*in thousands*):

2015	\$ 9,501
2016	9,455
2017	9,235
2018	7,937
2019	7,957
Thereafter	30,145
Total minimum payments	<u>\$ 74,230</u>

Rent expense for all operating leases, net of amounts allocated to affiliates, for the years ended December 31, 2014 and 2013, was \$12,376,000 and \$13,472,000, respectively.

The stop loss amount reported above represents the stop loss underwriting gain from the ASC business.

For the year ended December 31, 2014, GHMSI ceded an ASC underwriting loss of \$567,000 to CFMI and assumed an ASC underwriting loss of \$5,284,000 from CFMI for a net underwriting loss of \$4,717,000. For the year ended December 31, 2013, GHMSI ceded an ASC underwriting loss of \$1,105,000 to CFMI and assumed an ASC underwriting loss of \$3,055,000 from CFMI for a net underwriting loss of \$1,950,000.

20. Fair Value Measurements

A. Fair Value Measurement Valuation Techniques and Inputs

Included in various investment-related line items in the financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value, such as when impaired, or, for certain bonds and preferred stocks, when carried at the lower of cost or market. SSAP No. 100 *Fair Value Measurements* defines fair value, establishes a framework for measuring fair value and establishes disclosures about fair value. The fair value hierarchy is as follows:

- Level 1 – Quoted (unadjusted) prices for identical assets or liabilities in active markets.
- Level 2 – Other observable inputs, either directly or indirectly.
- Level 3 – Unobservable inputs that cannot be corroborated by observable market data.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset. Management is responsible for the determination of fair value, and performs monthly analyses on the prices received from third parties to determine whether the prices appear to be reasonable estimates of fair value.

There were no transfers between levels during the years ended December 31, 2014 and 2013.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Bonds. The fair value of U.S. Treasury securities is determined by an active price for an identical security in an observable market and is therefore classified as Level 1. Other U.S. government agencies securities, state and municipal securities, foreign governments securities, corporate bonds, mortgage-backed securities and other asset-backed securities that are priced by independent pricing services using observable inputs are classified as Level 2. Observable inputs used

NOTES TO FINANCIAL STATEMENTS

for other U.S. government agencies securities include quoted prices for like or similar assets, benchmark yields, reported trades and credit spreads. Observable inputs used for state and municipal securities, foreign governments securities and corporate bonds include quoted prices for identical or similar assets that are traded in an active market, benchmark yields, new issuances, issuer ratings, reported trades of comparable securities and credit spreads. The fair value of mortgage-backed securities and other asset-backed securities is determined by a cash flow model, which utilizes observable inputs such as quoted prices for identical or similar assets, benchmark yields, prepayment speeds, collateral performance, credit spreads, and default rates at commonly quoted intervals.

Stocks. Fair values of publicly-traded index funds where market quotes are available but are not considered actively traded are classified as Level 2. Fair values of privately held equity securities, where there has been limited trading activity or where less price transparency exists around the inputs to the valuation, are classified as Level 3.

NOTES TO FINANCIAL STATEMENTS

22. Events Subsequent

There have been no events occurring subsequent to the close of the books or accounts for this statement that would have a material effect on the financial condition of the Company.

As discussed in Note 1C, the Company is subject to the HIF mandated by the Health Reform Legislation. The Company's portion of the HIF becomes payable once it provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the HIF is due. The Company has written health insurance subject to the PPACA assessment as of December 31, 2014 and is conducting health insurance business in 2015. The Company estimates its portion of the HIF payable on September 30, 2015 to be \$70,000,000. This amount is reflected in special surplus. This assessment is expected to decrease risk-based capital (RBC) by 66% from 878% to 812%. Reporting the HIF as of December 31, 2014 would not have triggered an RBC action level.

23. Reinsurance**A. Ceded Reinsurance Report**

The Company maintains a quota-share reinsurance contract with FirstCare, a plan sponsor offering Medicare Part D prescription drug insurance coverage under a contract with CMS. The Company assumed risk premiums in the amount of \$6,040,000 and \$6,350,000 and incurred an underwriting loss in the amount of \$275,000 and \$295,000 for the years ended December 31, 2014 and 2013, respectively.

Certain business has been written by CFMI and GHMSI which represents contracts outside the historic CFMI and GHMSI service areas (cross-jurisdictional sales). The net underwriting gain or loss from this cross-jurisdictional business is transferred via a quota-share reinsurance contract from the company that earned them to the company in whose service area they were earned. The Company remains obligated for amounts ceded in the event that CFMI does not meet its obligations. As a result of this reinsurance agreement, the following amounts were assumed from and ceded to CFMI (*in thousands*):

	Year Ended December 31

General Interrogatories

Part 2 - Health Interrogatories

Question 10.1 Incentive pool, withheld or bonus arrangements

In 2014, certain primary care physicians, who participated with the Company's Total Care and Cost Improvement program, which includes the Patient-Centered Medical Home program that was authorized by the Maryland Health Care Commission, and who met the criteria of the Outcomes Incentive Awards, received reimbursement increases through their fee schedules. The Company did not record any medical incentive pool amount in relation to the reimbursement increases as the impact from the change in fee schedules will be reported as claims and included in the unpaid claims liability when future provider claims are incurred. Therefore, no separate amount is payable to the providers.

Question 11.6 Minimum net worth requirements

The company is licensed to conduct business in the states of Virginia (Northern Virginia) and Maryland and the District of Columbia. The minimum net worth for each of these jurisdictions is as follows:

District of Columbia: calculated as 8% of prior year's risk premium

Prior Year's Premium Written	\$3,095,809,333
Less: FEP Premiums Written	\$1,760,204,270
Prior Year's Risk Premiums Written	\$1,335,605,063
Multiply by Applicable Rate for the District of Columbia	8%
Minimum Statutory Reserve Requirements	\$106,848,405

Maryland: \$106,848,405 Minimum Statutory Reserve Requirement: calculated as 8% of prior year's risk premium.

Virginia: \$187,637,244 calculated as 45 days of anticipated operating expenses and incurred claims expenses generated from subscription contracts.

	Incurred Claims (1)	Operating Expenses (2)
Total	\$2,883,215,736	\$506,673,228
Less: FEP	1,754,977,400	112,965,033
Incurred	1,128,238,336	393,708,195
Divided by	365	365
Times	45	45
	\$139,097,877	48,539,367

\$139,097,877 (incurred claims) plus \$48,539,367 (Operating expenses) = \$187,637,244
