1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Operation

Unison Health Plan of the Capital Area, Inc. (the Company) had a contract with the Government of the District of Columbia, Office of Contracting and Procurement (the District), to provide health care services to Medicaid and Health Care Alliance (Alliance), a program for uninsured children and adults, eligible beneficiaries in the District of Columbia. This contract represented 100% of the Company's direct written premiums and was effective through April 30, 2013. The District executed an extension of the Company's provider contract for the period from May 1, 2013 to June 30, 2013. Effective July 1, 2013, the Company's operations have been discontinued (see Note 4).

A. Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the District of Columbia Department of Insurance, Securities and Banking (the DISB).

The DISB recognizes only statutory accounting practices, prescribed or permitted by the District of Columbia, for determining and reporting the financial condition and results of operations of a health maintenance organization, for determining its solvency under District of Columbia Insurance Law. The state prescribes the use of the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) in effect for the accounting periods covered in the financial statement.

(1-8) No significant differences exist between the practices prescribed or permitted by the District of Columbia and those prescribed or permitted by the NAIC SAP which materially affect the statutory basis net income and capital and surplus as illustrated in the table below (in thousands):

The Company is committed to maintaining adequate operating cash and required capital and surplus levels to fund the run-out of related claims. In addition, the parent company, Three Rivers Holdings, Inc. (TRH), is committed to and has the financial resources for the Company to meet all of its financial obligations. 20. FAIR VALUE MEASUREMENT

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)
- Inputs that are derived principally from or corroborated by other observable market data

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and short-term investments are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (pricing service), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of

NOTES TO FINANCIAL STATEMENTS

the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

A. Fair Value

(1) Fair Value Measurements at Reporting Date

The Company does not have any financial assets that are measured and reported at fair value on the statutory basis statements of admitted assets, liabilities, and capital and surplus at September 30, 2013 and December 31, 2012.

(2) The Company does not have any financial assets with a fair value hierarchy of level 3.

B. Fair Value Combination — Not applicable.

25. CHANGE IN INCURRED CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

Changes in estimates related to the prior year incurred claims are included in total hospital and medical expenses in the current year in the accompanying statutory basis statements of operations. The following tables disclose paid claims, incurred claims, and the balance in the claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves and health care receivable at September 30, 2013 and December 31, 2012 (in thousands):

	September 30, 2013

 Total incurred claims	 \$ 187,904	 \$ (10,154)	 \$ 177,750

*Health care receivable excludes loans/advances to providers of \$0

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves and health care receivable as of December 31, 2012 were approximately \$29,301,000. As of September 30, 2013, approximately \$26,335,000 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years are now approximately \$3,133,000 as a result of re-estimation of unpaid claims. Therefore, there has been approximately \$167,000 unfavorable prior year development since December 31, 2012 to September 30, 2013. The primary drivers consist of unfavorable development of approximately \$2,587,000 due to an increase in provider settlement reserves, offset by favorable change in the provision for adverse deviations in experience of approximately \$1,906,000, by favorable

NOTES TO FINANCIAL STATEMENTS

development of approximately \$1,771,000 in retroactivity for inpatient, outpatient, physician, dental, and pharmacy claims, and by favorable experience in risk share reserves of approximately \$63,000. At December 31, 2012, the Company recorded approximately \$10,154,000 of favorable development related to insured events of prior years primarily as a result of ongoing analysis of loss development trends and changes to the provider settlement reserves. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this favorable development is the impact related to retrospectively rated policies. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

The Company incurred claims adjustment expenses (CAE) of approximately \$4,887,000 and \$8,611,000 for the nine months ended September 30, 2013 and the year ended December 31, 2012, respectively. These costs are included in the management service fees paid by the Company to UHS as a part of its management agreement. The following tables disclose paid CAE, incurred CAE, and the balance in the unpaid claim adjustment expenses reserve for the nine months ended September 30, 2013 and the year ended December 31, 2012 (in thousands):

	September 30, 2013	December 31, 2012
