Scope and Range of the Increase:

The 10.1% increase is requested because:

Primary factors affecting the rate change are:

- Claims experience of the single risk pool different than projected in the previous year.
- Increases in medical inflation.
- Changes in population morbidity and demographic make-up of the pool.
- Risk adjustment transfer payments into the district-wide risk adjustment pool.
- Benefit plan design adjustments, including those made to comply with Actuarial Value ("AV") requirements which results in varying rate changes by plan.
- Federal and District taxes and fees

This filing will impact:

of policyholder's 3422

of covered lives 4847

The average, minimum and maximum rate changes increases are:

- Average Rate Change: The average premium change, by percentage, across all policy holders if the filing is approved 10.1 %
- Minimum Rate Change: The smallest premium increase (or largest decrease), by percentage, that any one policy holder would experience if the filing is approved 8.1 %
- Maximum Rate Change: The largest premium increase, by percentage, that any one policy holder would experience if the filing is approved 14.3%

Individuals within the group may vary from the aggregate of the above increase components as a result of:

Individual increases vary from the average rate change primarily due to plan specific rate changes and recognition that a member is a year older.

Financial Experience of Product

The overall financial experience of the product includes:

For the 2024 experience period, Kaiser lost \$4.5 million dollars on \$29.3 million dollars of premium on the Small Group pool. This is equivalent to a margin of -15.3%. The estimated net medical expense and risk adjustment incurred is \$30.3 million dollars. Other estimated expenses for administration, taxes and fees are \$3.5 million.

The rate increase will affect the projected financial experience of the product by:

The proposed rate change combined with anticipated changes in medical expense, administration, taxes and fees is expected to result in a margin of -4.7% for the projection period.
