THE STATE LIFE INSURANCE COMPANY

Actuarial Memorandum for Premium Rate Filing

LONG-TERM CARE INSURANCE CONTINUATION OF BENEFITS RIDER

FORM R501

1. Purpose of Memorandum

To support these premium rates for new issues on the above referenced rider form for the State Life Insurance Company (“Company”). The rider form is non-cancellable and as such, the premium rates for any existing policyholder will not and cannot be increased in the future. The rates for this filing will be applicable for all riders issued after the implementation date and will be held constant for any policyholder issued during that time period. This is not a request to increase any existing policyholder premium rates. This memorandum is not intended to be used for other purposes.

2. Rider Description

A. Benefits Overview

This optional rider continues benefits payable under the base policy to which it is attached. Benefits are a reimbursement for qualified actual expenses up to the monthly benefit limit. The continuation becomes effective after benefit payments under the base policy have reduced the long-term care benefit balance and specified amount to zero.

Benefits are payable when an insured has been certified by a licensed health care practitioner as being chronically ill because of being unable to perform at least two activities of daily living or requiring substantial supervision due to severe cognitive impairment.

This rider may be attached to either a current-interest whole life insurance policy with long-term care benefits for a single insured or a current-interest whole life insurance policy with long-term care benefit with death benefit payable on the death of the second insured to die with long-term care benefit for either or both insured(s).

Amount of Benefit

The amount of continuation benefit offered under this rider will be determined by the policyholder at issue within Company size limitations. This rider will reimburse payment for qualified actual expenses up to the rider monthly benefit limit.

### Optional Inflation Benefit

Optional inflation protection can be selected at issue for this rider. Available options are 2%, 3%, 4%, and 5% all compound annually. On each rider anniversary the remaining rider long-term care benefit balance and rider monthly benefit will increase at the rate chosen by the policyholder at issue, compounded annually.

### Length of Time Benefit is Continued

The policyholder will choose one of the following options at issue:

<b>COB Rider Duration</b>	<b>Initial Rider LTC Benefit Balance</b>
25 months	25 x initial rider monthly benefit
33 months	33 x initial rider monthly benefit
50 months	50 x initial rider monthly benefit
66 months	66 x initial rider monthly benefit
75 months	75 x initial rider monthly benefit
100 months	100 x initial rider monthly benefit
Lifetime	Unlimited benefit balance. The rider monthly benefit limit determines the maximum monthly benefit available

Benefits will be available until the rider long-term care benefit balance is exhausted. At issue the rider long-term care benefit balance is equal to the rider monthly benefit limit times the number of months of rider benefit selected at issue. If the Lifetime option is elected the total benefit is unlimited subject to the monthly benefit limit.

### Optional Nonforfeiture Benefit

If the policyholder selects the optional nonforfeiture benefit and the policyholder allows this rider to lapse, the policyholder will receive a paid-up rider with a rider long-term care benefit balance determined according to the terms of the contract. Long-term care benefits under the shortened benefit period become available when: (a) benefit payments from the base policy have reduced the base policy's long-term care benefit balance to zero; or (b) the policyholder provides proof that they have paid long-term care expenses in an amount equal to the base policy's long-term care benefit balance at the time of rider lapse. Payment of long-term care benefits under the shortened benefit period is subject to all other terms and conditions of the base policy to which this rider is attached.

### Waiver of Premium Benefit

When an insured begins to receive benefits under this rider, the owner does not have to pay rider premiums that come due thereafter as long as an insured continues to receive such benefits under this rider when the premiums come due.

B. Renewability

All components of this rider are non-cancellable. The premium rates for the rider are level and set at issue; they will not change once a rider is issued.

C. Applicability

This rider rate filing only applies for new issues. No riders in force will be affected by these rates.

D. Marketing Method

The rider will be offered at time of sale of a base policy. This rider may be added to existing base policies, but additional underwriting will be required.

E. Issue Ages

The rider is available for issue ages 35 through 85.

3. Rider Premiums

Premiums can be paid in one of four options selected at issue: single pay, ten pay, twenty pay, or level pay to age 100.

Premium rates are expressed per \$1,000 of initial long-term care monthly benefit.

Premium rates for the rider vary by premium paying period, issue age, number of insureds (single life or two lives), base life policy long-term care acceleration option, duration of this rider, inflation option, and nonforfeiture option. Exhibit I contains the premium rates for this filing.

No area factors are used in the premium rates.

The modal factors for premium payment are as follows:

Annual	1.0000
Semiannual	0.5200
Quarterly	0.2650
Monthly	0.0858

4. Underwriting

The rider will be underwritten with the base life policy. Acceptance or rejection of the applicant(s) for this rider will be contingent on acceptance or rejection of the base life policy. Applicants will be underwritten based on questions asked on the base life insurance policy.

Additionally application questions are based on typical LTC selection criteria. Underwriting requirements vary by face amount or net amount at risk and issue age on the base life policy. Higher issue ages and face amounts require paramedical exams or medical underwriting. Additional underwriting requirements may include face-to-face interviews, attending physician statements, blood tests, and EKG's.

## 5. Actuarial Assumptions

### A. Morbidity - CONFIDENTIAL

The incidence and continuance assumptions were formulated using data from the Society of Actuaries Long-Term Care Experience Committee Intercompany Study Report 6 1984-2007. The claim incidence rates were taken from Appendix D of this study and vary by attained age. Modifications to the basic table reflect company experience and expectation. Additionally, scalars have been applied to incidence for policyholder selection of options such as inflation or longer benefit periods. These scalars represent the company's best estimate of increased utilization for policyholders with "richer" benefits.

The claim persistency assumptions were taken from Appendix E of the study and vary by attained age at incurral of claim and gender. Modifications have been made to reflect company experience which is slightly longer than the SOA study.

Morbidity selection factors are used during the first twelve years. The company considers this a prudent assumption given the following:

- No additional underwriting is required for the different benefit periods or inflation options
- Non-cancellable premium rates

Morbidity rates do not assume any trend or improvement.

### B. Mortality - CONFIDENTIAL

Mortality rates for active lives use a modest variation from the 2008 Valuation Basic Table (VBT) to reflect the Company's experience.

### C. Lapse - CONFIDENTIAL

Annual lapse rates for this rider are shown in the following table:

<b>Rider Year</b>	<b>Single Pay</b>	<b>10-Pay</b>	<b>20-Pay</b>	<b>Level Pay</b>
1	0%	1.0%	1.0%	1.0%
2	0%	3.5%	3.5%	3.5%

F. Average Annual Premium

Based on the above stated distributions, the average single premium rate for the rider is \$10,710 per \$1,000 of initial monthly benefit; the average repetitive premium rate for the rider is \$746 per \$1,000 of initial monthly benefit.

G. Claim Liability and Reserves

In calculating claim reserves the company will use the following methods and assumptions in compliance with *Actuarial Standards of Practice Number 5, Incurred Health Claim Liabilities*. There will be two components to the claim reserves:

1. Disabled Life Reserves. We will calculate disabled life reserves using the tabular method and the maximum valuation interest rates applicable to each year of incurral. Claim termination rate assumptions used to develop tabular factors will be based on those used to develop initial claim costs as described in this memorandum. These rates will be modified to reflect actual claim termination experience as credible experience emerges.
2. Reserve for Claims Incurred but not Reported (IBNR). We will calculate IBNR reserves using the development method. Development assumptions will be based on historical reviews of lag times between incurred and first payment dates of each unique claim. Estimates of IBNR claim counts will be multiplied by average claim

sizes of claims already reported (including consideration of amounts not yet due on disabled lives). It is expected that very early experience (the first year of new rider sales) will not be credible enough for the development method. Accordingly, the company anticipates using the target loss ratio method for the first year of new rider sales. If early experience indicates that the first target loss ratio will be exceeded, a combination of the development method and actuarial judgment that complies with *Actuarial Standards of Practice Number 5* will be used.

#### H. Active Life Reserves

Active life reserves will use the net level premium method with lapse assumption capped as described in the 2003 NAIC Health Insurance Reserves Model Regulation and the maximum allowable rate of interest. Active life reserves will use the lesser of pricing mortality rates and 1994 GAM. This will result in reserves that are more conservative than using 1994 GAM alone.

#### I. Contingency and Risk Margin

For GAAP, risk margins were as follows: (a) 10% margin for morbidity, (b) 5% margin for mortality, (c) a 25 bps margin for earned rate, and (d) a 25 bps margin for lapses. For statutory reserves, risk margins were as follows: (b) 15% margin for morbidity and (b) a 25 bps margin for lapses.

The margin for moderately adverse experience can be seen in Exhibit II.

#### 6. Anticipated Lifetime Loss Ratio

The anticipated lifetime loss ratio is 50.8%. This is defined as the present value of discounted incurred claims (including waived premiums) over the present value of premium. The anticipated lifetime loss ratio and durational loss ratios can be seen in Exhibit III.

#### 7. Proposed Effective Date

The Company will make effective the premiums once approved and as soon as this change has been properly implemented and tested in our administrative systems.

8. Certification

I hereby certify, to the best of my knowledge and judgment, that

- a) this rate filing is in compliance with the applicable laws of this state and with the rules of the Department of Insurance and complies with Actuarial Standard of Practice No. 8;
- b) the actuarial assumptions employed are appropriate;
- c) the reserves make good and sufficient provision to meet future rider obligations; and
- d) the premiums are reasonable in relation to the benefits.

In my opinion, the initial premium rate schedule is sufficient to cover anticipated costs under moderately adverse experience and the premium rate schedule is reasonably expected to be sustainable over the life of the form with no future premium increases anticipated.

The rider design and coverage provided have been reviewed and taken into consideration.

The underwriting and claims adjudication processes have been reviewed and taken into consideration. A complete description of the basis for contract reserves is included. The assumptions used for reserves contain reasonable margins for adverse experience. The net valuation premium for renewal years does not increase. In aggregate, the difference between the gross premium and the net valuation premium for renewal years is sufficient to cover expected renewal expenses. The premium rate schedule is not less than the premium rate schedule for existing similar rider forms also available from the insurer.

**New Rate Filing for New Business on Existing Approved Rider  
Applies to: Rider R501 Rates Approved on August 4, 2006  
SERFF File Number: SERT-6N6JCL468/00-00/00-00/00**

Dear Commissioner:

Included in this submission is a request for a premium rate revision applicable to future insured's as well as additional inflation protection options for the above listed rider form. This premium rate revision is for new business only and does not impact any in force business. The approved rider form, R501, does not require any changes.

We find that our rates must be revised for new business. The rider premium rates are being revised due to changes in investment returns and morbidity. The submitted rates are on average approximately 75% higher than our current rates for this rider. These rates are noncancelable as are those for our existing customers.

In addition, we are asking for your approval on a change to the inflation protection options. We are requesting approval to offer 2%, 3% and 4% compounded annually. At this point we only offer 5% compounded annually. In the lower interest rate environment the traditional 5% inflation premium rates have increased significantly. Therefore we would like to provide the consumer with options to have some inflation protection verses no inflation protection. We also intend to offer additional benefit period options which include 66 months, 75 months and 100 months. We now offer 25 months, 33 months and 50 months. In addition we will include a new premium payment option of 20 pay.

Subject to your approval of this rate revision filing, the new premium rates will be applied on a prospective basis for coverage issued on or after January 1, 2014. If approved, the new options for inflation protection and the 20 pay option will also begin to be offered on January 1, 2014.

### **Long-Term Care Benefits Continuation Rider Outline of Coverage For Rider Form R501**

**Caution: The issuance of this rider with long-term care benefits is based upon your responses to the questions on your application. You retained a copy of your application when you applied. If your answers are incorrect or untrue, the Company may have the right to deny benefits or rescind your rider. The best time to clear up any questions is now before a claim arises! If, for any reason, any of your answers are incorrect, contact the Company at this address:**

**NOTICE TO BUYER REGARDING THE LONG-TERM CARE RIDER.** This rider may not cover all the costs associated with long-term care incurred by the buyer during the period of coverage. The buyer is advised to review carefully all rider terms and limitations.

1. This rider is an individual rider of insurance.
2. **PURPOSE OF OUTLINE OF COVERAGE.** This outline of coverage provides a very brief description of the important features of this rider. You should compare this outline of coverage to outlines of coverage for other riders available to you. This is not an insurance contract, but only a summary of provisions. Only the rider contains governing contractual provisions. This means that the rider sets forth in detail the rights and obligations of both you and us. Therefore, if you purchase this coverage, or any other coverage, it is important that you **READ YOUR RIDER CAREFULLY!**
3. **FEDERAL TAX CONSEQUENCES.** It is intended that the long-term care benefits provided by this rider qualify as tax-free benefits under Section 7702B(b) and/or Section 101(g) of the Internal Revenue Code. The receipt of long-term care benefits may be taxable, and assistance should be sought from a personal tax advisor.

4. **TERMS UNDER WHICH THE RIDER MAY BE CONTINUED IN FORCE OR DISCONTINUED.** The rider is a long-term care insurance rider. It remains in force until one of the following occurs:

(A) You request the rider to end; or

(B) The rider long-term care benefit balance is zero ;

**RENEWABILITY: THIS RIDER IS NONCANCELABLE.** This means you have the right, subject to the terms of your rider, to continue this rider as long as you pay your premiums on time. This means the State Life Insurance Company cannot change any of the terms of your rider on its own and cannot change the premiums you currently pay.

**Waiver of Premium.** When an insured begins receiving benefits under this rider the premium for the rider is waived as long as an insured continues to receive such benefits. This does not apply to a rider paid with a single premium.

5. **TERMS UNDER WHICH THE COMPANY MAY CHANGE PREMIUMS.** The State Life Insurance Company cannot change your premiums.
6. **TERMS UNDER WHICH THE RIDER MAY BE RETURNED AND PREMIUM REFUNDED.** You may cancel this rider by returning it within 30 days after you receive it. The rider will be void from the start. We will return to you no less than the premium you paid.
7. **THIS IS NOT MEDICARE SUPPLEMENT COVERAGE.** If an insured is eligible for Medicare, review the Medicare Supplement Buyer's Guide available from The State Life Insurance Company. Neither the insurance company nor its agents represent Medicare, the federal government, or any state government.
8. **LONG-TERM CARE COVERAGE.** Riders of this category are designed to provide coverage for one or more necessary or medically necessary diagnostic, preventative, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute care unit of a hospital, such as in a nursing home, in the community, or in the home.

This rider provides coverage in the form of a monthly benefit for covered long-term care expenses, subject to the rider limitations, exclusions and waiting period requirements.

**9. BENEFITS PROVIDED BY THIS RIDER.**

DESCRIPTION OF BENEFITS		
Type of Care	Long-Term Care Monthly Benefit Limit	*Maximum Amount Available for Long-Term Care
Care in a long-term care facility (including assisted living facility). Home Health Care. Adult Day Care. Hospice Care.	The amount of the monthly benefit is the lesser of the monthly benefit limit, which can be 2%, 3% or 4% of the death benefit, or the actual charge for care.	It is equal to the rider's long-term care benefit balance.
Respite Care	Actual expenses incurred up to an amount equal to 100% of the rider monthly benefit limit or the actual charge for care.	Long-term care is available for 21 days per calendar year.
Bed Reservation	Actual expenses incurred up to an amount equal to the monthly long-term care withdrawal limit* divided by 30, multiplied by the number of days of qualifying care.	Long-term care is available for 31 days per calendar year.
<p>*Long-term care monthly benefit limit: The maximum benefit available is called the rider long-term care benefit balance. Benefits under this rider begin only after the benefit payments under the base policy have been exhausted. Remember you choose the number of months you want to receive this benefit. The number of months you choose does not affect the amount of your monthly benefit.</p>		

**THIS RIDER MAY NOT COVER ALL EXPENSES ASSOCIATED WITH YOUR LONG-TERM CARE NEEDS.**

10. **Optional Nonforfeiture Benefit.** If you have selected the optional nonforfeiture benefit and your rider lapses due to nonpayment of premium, we will provide you with a shortened benefit period. This is called the nonforfeiture benefit.
11. **Optional Inflation Protection Rider.** When you apply for this rider you may select the optional inflation protection of 2%, 3%, 4% or 5% with compound growth. If you choose this option, the rider monthly benefit limit and the remaining rider long-term care maximum benefit will increase at the beginning of each rider year except the first. Benefits will increase annually. The selection of the inflation protection option will increase the premium you pay for this rider.

**Example: Monthly Limit \$3,000**  
**Optional Inflation Protection Options: 0%, 2%, 3%, 4%**  
**and 5%**

<u>Rider</u> <u>Year</u>	<u>Maximum Monthly Benefit *</u>				
	<u>0%</u>	<u>2%</u>	<u>3%</u>	<u>4%</u>	<u>5%</u>
1	\$3,000	\$3,000	\$3,000	\$3,000	\$3,000
5	\$3,000	\$3,247	\$3,376	\$3,509	\$3,646
10	\$3,000	\$3,585	\$3,914	\$4,269	\$4,653
15	\$3,000	\$3,958	\$4,537	\$5,195	\$5,959
20	\$3,000	\$4,370	\$5,260	\$6,320	\$7,580

**Not all options are available in all states.**

12. **RELATIONSHIP OF COST OF CARE AND BENEFITS.** Because the costs of long-term care services will likely increase over time, you should consider whether and how the benefits of this plan may be adjusted.
13. **ALZHEIMER’S DISEASE AND OTHER ORGANIC BRAIN DISORDERS.** Subject to all other terms of the rider, long-term care benefits will be permitted for long-term care expenses incurred due to Alzheimer’s disease, similar forms of senility or irreversible dementia, and Parkinson’s disease.

**PREMIUM.**

Base Rider Premium: \$\_\_\_\_\_ (Annual/Single)

Optional Inflation Protection Benefit Premium: \$\_\_\_\_\_ (Annual/Single)

Optional Nonforfeiture Benefit Premium: \$\_\_\_\_\_ (Annual/Single)

14. **ADDITIONAL FEATURES.** When you submit your application, we will medically underwrite your application to determine that a person to be insured is insurable.

No death benefit is payable under this rider.

Any partial withdrawals taken from the base policy will reduce the rider monthly benefit limit, the rider long-term care benefit balance and the rider premium.

**EXTENSION OF BENEFITS.** If this rider terminates for any reason during payment of benefits under the rider, any benefits being provided by the rider for care in a long-term care facility will continue to be payable if the insured’s stay in the long-term care facility begins while this rider is in force and continues without interruption after termination of this rider.

15. **CONTACT THE STATE SENIOR HEALTH INSURANCE ASSISTANCE PROGRAM IF YOU HAVE GENERAL QUESTIONS REGARDING LONG-TERM CARE INSURANCE. CONTACT THE INSURANCE COMPANY IF YOU HAVE SPECIFIC QUESTIONS REGARDING YOUR INSURANCE RIDER.**
