## Rate Filing Justification Part II (Plain Language Summary)

Pursuant to 45 CFR 154.215, health insurance issuers are required to file Rate Filing Justifications. Part II of the Rate Filing Justification for rate increases and new submissions must contain a written description that includes a simple and brief narrative describing the data and assumptions that were used to develop the proposed rates. The Part II template below must be filled out and uploaded as an Adobe PDF file under the Consumer Disclosure Form section of the Supporting Documentation tab.

Market Type: ☒ Individual ☐ Small Group  
Rate Filing Type: ☒ Rate Increase ☐ New Filing

### Scope and Range of the Increase:

The 14.7 % increase is requested because:

The main drivers of the 2021 rate increase are 1) deterioration in the base period experience of the combined pool, 2) trend (6.0% assumed annual trend), 3) elimination of the health insurer fee, 4) higher projected risk adjustment factor, and 5) higher projected cost for the Catastrophic plan.

This filing will impact:

# of policyholder's 3,642 # of covered lives 4,320

The average, minimum and maximum rate changes increases are:

- Average Rate Change: The average premium change, by percentage, across all policy holders if the filing is approved 14.7 %
- Minimum Rate Change: The smallest premium increase (or largest decrease), by percentage, that any one policy holder would experience if the filing is approved 6.9 %
- Maximum Rate Change: The largest premium increase, by percentage, that any one policy holder would experience if the filing is approved 49.9 %

Individuals within the group may vary from the aggregate of the above increase components as a result of:

Product selection, changes in age factors, and changes in family composition.

### Financial Experience of Product

The overall financial experience of the product includes:

In 2019, a total of \$20.8 million in premium was collected and \$14.4 million in claims were paid out, along with \$4.5 million paid in risk adjustment, for a loss ratio of 90.4%. However, the rate increase of the product is driven partially by the combined Individual and Small group experience, which collected \$234.9 million in premium and paid out \$181.3 million in claims and paid \$11.8 million in risk adjustment for a loss ratio of 82.2%.

The rate increase will affect the projected financial experience of the product by:

The proposed rate increases are aimed to bring the combined loss ratio for Individual/Small Group a projected 77.7%.

### Components of Increase
