Amendment Letter

Submitted Date: 05/27/2019

Comments:

It came to my attention the RATEE data submitted with the filing was from 2017. This amendment corrects this and includes 2018 RATEE data. Please let me know if you have any questions.

Best,

Ryan

Formula & Example

Rate Calculation Formula

Monthly premium =

- Base Rate
- x Plan ratio
- x Effective date adjustment (EDA) factor for plan effective or renewal date
- x Sum of member age factors for the group

Rating Example

Benefit Plan: EPO plan BQ-AK with Rx 813

Effective Date: 1/1/20

Census:

	<u>Member Ages</u>				<u>Age Factors</u>			
	<u>EE Age</u>	<u>Spouse Age</u>	<u>Child #1</u>	<u>Child #2</u>	<u>EE</u>	<u>Spouse</u>	<u>Child #1</u>	<u>Child #2</u>
EE #1	43	41	10	15	1.094	1.013	0.654	0.654
EE #2	35	36	5	9	0.876	0.896	0.654	0.654
EE #3	53	55	19		1.605	1.733	0.654	

Total Members: 11

Sum of Age Factors: 10.487

Rate Calculation

	<u>Rating Factor</u>	<u>Exhibit 1 Location</u>
\$795.99	Base Rate	(1)
0.6546	Benefit Plan Ratio (BQ-AK w 813)	(2)
1.000	EDA Factor (1Q20)	(3)
10.487	Group Age Factor	(4)
<u>\$5,464.30</u>

Methodology

- a) An effective coinsurance for Per-Occurrence Deductibles on Imaging services and Outpatient facility fee was calculated based on unit costs derived from UnitedHealthcare's proprietary pricing model.
- b) Actuarial Value is the blend of Free-Standing and Hospital setting run, where weight of Free Standing and Hospital Setting are adjusted based on actual utilization of free standing and hospital facilities by service categories.
- c) Specialty Rx: Entered the Rx Tier cost share with the highest specialty drug utilization per UnitedHealthcare's proprietary pricing model.
- d) See Exhibit 2 for plan benefit description, and for tie-in to benefit plan name.

Certification

For plan design features that do not fit into the parameters of the AV Calculator, I certify that both the methodology and the calculated estimated values are in accordance with generally accepted actuarial principles and methodologies.

Notes:

- [1] Represents core utilization only, exclusive of demographic change impacts; includes expected impact of changes in business day content.
- [2] Represents expected changes in intensity of services provided.
- [3] Represents core unit pricing increases, exclusive of service mix / intensity of services impact;
- [4] Impact of member cost-share leveraging on net claims cost trend.
- [5] Represents trend impact of age and gender changes; No provision included for Small Group business (age/gender community rating variable).
- [6] Pricing models do not distinguish between Primary and Specialty medical care; same trends shown for both.

Section 1: Purpose

The following is a rate filing prepared by UnitedHealthcare Insurance Company. This filing has been prepared to provide the necessary information required by the Department of Health and Human Services and the state of District of Columbia. The purpose of this memorandum is to provide information relevant to the Federal Part I Unified Rate Review Template (URRT).

This filing establishes rates intended to be used for non-grandfathered PPACA compliant small group health benefit plans sold on the Small Business Health Options Program in District of Columbia for the 2020 plan year. A rate increase is being filed at this time. The rates and other information in this submission are based on the current regulations and guidance from HHS. Changes to this filing may be necessary if there are revisions to the regulations or updated guidance from HHS.

This memorandum is intended solely for the information of and use by the Department of Health and Human Services and the District of Columbia Department of Insurance and Financial Services. It will demonstrate compliance with state and federal laws and regulations related to the development of the index rate and allowable rating factors and is not intended to be used for any other purpose.

The attached document contains confidential, proprietary information and trade secrets. This information is strictly confidential and protected from disclosure by D.C. Code section 31-3303.08(b) and D.C. Code section 2-534(a)(1). If the prohibition against disclosure by the Department of Insurance and Financial Services is reassessed at a later date, it may not be disclosed to any other state or federal regulatory agencies unless the recipient agrees in writing prior to receipt to maintain the confidentiality of the information.

Section 2: General Information

Company Identifying Information

Company Legal Name:	UnitedHealthcare Insurance Company
State:	District of Columbia
HIOS Issuer ID:	41842
Market:	Small Business, 1-50
Proposed Effective Date:	January 01,2020

Primary Contact Information

Name:	Ryan Morgan, FSA, MAAA
Telephone Number:	414-443-4287
Email Address:	ryan_morgan2@uhc.com

Section 3: Proposed Rate Changes

The proposed change in rates for this filing is 15.56% compared to the prior filing. These changes are applied uniformly to all plans within a rating area. The proposed pricing trend is 8.29% annually.

The primary drivers of the proposed rate changes are the following:

- Changes in medical service costs
 - Increasing Cost of Medical Services – Annual increases in reimbursement rates to health care providers – such as hospitals, doctors and pharmaceutical companies.
 - Increased Utilization – The number of office visits and other services continues to grow. In addition, total health care spending will vary by the intensity of care and/or use of different types of health services. Patients who are sicker generally have a higher intensity of health care utilization. The price of care can be affected by the use of expensive procedures such as surgery vs. simply monitoring or providing medications.
 - Higher Costs from Deductible Leveraging – Health care costs continue to rise every year. If deductibles and copayments remain the same, a greater percentage of health care costs need to be covered by health insurance premiums each year.
 - Cost shifting from the public to the private sector – Reimbursements from the Center for Medicare and Medicaid Services (CMS) to hospitals do not generally cover all of the cost of care. The cost difference is being shifted to private health plans. Hospitals typically make up this difference by charging private health plans more.
 - Impact of New Technology – Improvements to medical technology and clinical practice often result in the use of more expensive services - leading to increased health care spending and utilization.
- Administrative costs and anticipated profit
 - UnitedHealthcare works to directly control administrative expenses by adopting better processes and technology and through the development of programs and innovations that make health care more affordable. We have led the marketplace by introducing key innovations that make health care services more accessible and affordable for customers, improve the quality and coordination of health care services, and help individuals and their physicians make more informed health care decisions.
 - Additionally, UnitedHealthcare indirectly controls medical cost payments by using appropriate payment structures with providers and facilities. UnitedHealthcare's goal is to control costs, maximize efficiency, and work closely with physicians and providers to obtain the best value and coverage.
 - State and/or Federal government imposed taxation and fees are additional significant factors that impact health care spending. These fees include ACA taxes and fees which will have increased health insurance costs and need to be reflected in premium.
- Changes that vary by plan
 - All plan relativity factors have been updated to reflect UnitedHealthcare's most recent pricing model.
 - The impact of any changes to plans that have occurred due to uniform modification are also reflected in the updated plan relativity factors. Please see the "Plan Adjusted Index Rate" section of the memorandum for more detail on these changes.

We refined the medical and pharmacy plan price relativities to reflect the most recent pricing methodology and pricing models. The methodology is based on UnitedHealthcare nationwide experience data, which contains utilization frequencies and unit costs by service category, in addition to claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan. The expected paid-to-allowed relativities and expected utilization differences due to differences in cost sharing for each plan are then used to develop the plan factors for each benefit plan. All benefit plans are priced consistently with each other, with the rates differing by the estimated value of the benefits and the expected utilization differences due to differences in cost sharing. The utilization differences do not reflect differences due to health status. The net impact of all changes by plan can be found in Worksheet 2, Section I of the Unified Rate Review Template.

Significant factors driving the proposed rate changes are discussed in further detail in Section 6 (*Projection Factors*) and Section 7 (*Credibility Manual Rate Development*) of this memorandum.

Section 4: Experience and Current Period Premium, Claims and Enrollment

Paid Through Date

The experience period is 1/1/2018 through 12/31/2018, with claims paid through 2/28/2019.

Support for estimate of incurred but not paid claims

Historical claims are categorized both by the month in which they were incurred and the month in which they were adjudicated. For incurral months with sufficient adjudicated claim experience, incurred claims are estimated by applying completion factors derived from the historical claims. Adjustments are made based on specific knowledge of the entity (e.g., catastrophic claims, pended claims, etc.). For incurral months where adjudicated claim experience is not sufficient to rely on completion factors, a PMPM is used to estimate incurred claims. PMPM estimates are based on expected claim seasonality patterns, monthly calendar days and work days, emerging claim trends, and other factors.

The same completion factors are applied to both incurred and allowed claims amounts.

Experience Period Risk Adjustment

Risk Adjustments for the experience period are not known at this time.

Our 2018 risk adjustment transfer PMPM is estimated using data provided to UnitedHealthcare as a result of our participation in a multi-state study done by a large, independent actuarial consulting firm. Based on the results of that study, we expect that risk level of the membership insured by UnitedHealthcare Insurance Company to be lower than the market. This results in an approximate adjustment of \$5.66 PMPM.

Experience Period Index Rates

Experience Period Index Rates are defined as the allowed claims PMPM for Essential Health Benefits during the Experience Period. With the introduction of the URRT 5.0 and the breakout of service level EHB claims, the information provided reflects a reasonable estimate of the EHBs.

Section 5: Benefit Categories

Claims were assigned to each of the benefit categories based on where services were administered and the types of medical services rendered. The benefit categories were defined by our claims department using standard industry definitions.

Inpatient Hospital

Includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing, and other services provided in an inpatient facility setting and billed by the facility.

Outpatient Hospital

Includes non-capitated facility services for surgical, emergency room, laboratory, radiology, therapeutic, observation, and other services provided in an outpatient facility setting and billed by the facility.

Professional

Includes non-capitated primary care, specialist care, therapeutic, the professional component of laboratory and radiology, and other professional services, other than hospital based professionals whose payments are included in facility fees.

Other Medical

Includes non-capitated ambulatory, home health care, durable medical equipment, prosthetics, supplies, vision exams, dental services and other services.

Capitation

Includes all services provided under one or more capitated agreements.

Prescription Drug

Includes drugs dispensed by a pharmacy. This amount is net of rebates received from drug manufacturers.

Section 6: Projection Factors

Trend

Two years of annual trend were applied to our 2018 experience to project it to the 2020 rating period. Our most recent analysis indicates annual trend in the state of District of Columbia for the 2019 and 2020 calendar years will be 8.1% and 8.3%, respectively. The table below details the components of each trend factor.

Trend Component	2019	2020
Unit Cost	3.90%	4.10%
Utilization	3.30%	3.30%
Total	8.10%	8.30%

UnitedHealthcare develops forward-looking medical expense estimates based on a number of considerations. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, and benefit leveraging identified for each category. Future trends are developed based on a projection of each component.

Utilization rates by category are measured and projected. Forward looking utilization levels are developed based on emerging market level data, supplemented by regional and/or national level utilization data. Macro-economic data is often used to develop assumptions regarding directional changes in national health care consumption rates. UnitedHealthcare uses same store analysis to reflect utilization.

Market-level unit cost projections are developed based on evaluations of current and anticipated provider contract economics, as well as consideration to both current and expected changes in non-contracted provider cost exposure. Unit cost projections also consider the estimated cost impact of new technologies, service availability/mandates, or other factors that might influence the mix of procedures. Unit cost is based on our contractual changes with providers.

In addition, market-level healthcare affordability activities that are expected to impact forward-looking medical costs are recognized. Depending on the nature of individual initiatives, the impact may be recognized in one or more of the component cost items discussed above. Only incremental activities are recognized for this purpose in the expected trend impact for any particular period.

Section 7: Credibility Manual Rate Development

Adjustments Made to the Data

Adjustments similar to the ones described in Section 6 were applied to the experience of the credibility manual to project it to the projection period. In addition, the credibility manual was adjusted to reflect the average age, geography, plan design and morbidity of the adjusted experience period claims.

Inclusion of Capitation Payments

Capitation payments are included in both the experience and projections.

Section 8: Credibility of Experience

The experience for this legal entity contains 127,463 member months which does not exceed the 360,000 member months needed to be considered fully credible. As such the credibility of UnitedHealthcare Insurance Company is set to 0%, and the remaining uses the credibility manual described above.

Consideration was given to ASOP #25 when determining the credibility and appropriateness of the experience and the manual rate. The manual rate is sufficiently independent from the experience and can be blended with it for purposes of rate development.

Section 9: Development of Projected Index Rate

The experience period index rate is \$408.45 PMPM.

The Index Rate For the experience period is approximately 98.52% of allowed claims due to benefits in excess of EHBs. The reported percentage amount is based on experience data. The index rate of the experience period has been reported accordingly. The Index Rate in the projection period represents 98.52% of allowed claims due to the benefits in excess of EHBs.

The projected index rate of \$503.27 was calculated by trending and adjusting the experience period index rate to the projection period, including blending the experience with a manual rate if the experience was not fully credible. It is established in accordance with the requirements of 45 CFR §156.80(d). See sections 6, 7, and 8 of this memo for more details.

Section 10: Development of the Market-wide Index Rate

Reinsurance

There is no reinsurance program in force for this business, and as a result there are no reinsurance recoveries to report.

Risk Adjustment Payment/Charge

UnitedHealthcare Insurance Company anticipates paying for risk adjustment transfers in the state of District of Columbia for the 2020 plan year, which has been grossed up to \$13.54 PMPM on an allowed basis for purposes of calculating the Market-wide Adjusted Index Rate. We are assuming the risk level of our business relative to that of our competitors for the 2020 plan year will be similar to what it was in the 2018 plan year. Since risk adjustment transfer payments are a function of the market level premium, our 2020 risk adjustment transfer PMPM amount is calculated by adjusting our estimated 2018 risk adjustment transfer PMPM amount for the projected market level trend, changes in reinsurance fees and recoveries, and other adjustments based on the overall financial performance of the market.

Exchange User Fees

Marketplace user fees are applied as an adjustment to the Index Rate at the market level. The value reflects the expected mix of Marketplace and non-Marketplace enrollees.

The market adjusted index rate includes market-wide adjustments for reinsurance, risk adjustment transfers and exchange user fees (if any).

Index Rate	Net Federal or State Reinsurance (allowed basis)	Risk Adjustment Payment/Charge (allowed basis)	Exchange Fee Adjustment (allowed basis)	Market Adjusted Index Rate
\$503.27	\$0.00	(\$13.54)	0.00%	\$516.81

The figures above may not tally exactly due to rounding of the display.

Section 11: Plan Adjusted Index Rate

Actuarial Value and Cost Sharing Adjustment

UnitedHealthcare has a proprietary pricing model that was used in developing the actuarial value and cost sharing adjustment for each plan. The model calculates plan relativity factors for medical and pharmacy benefits. Also included under the actuarial value and cost sharing adjustment are adjustments for leveraging and the difference between the average plan relativity factor and the projected paid to allowed ratio.

UnitedHealthcare Insurance Company does not utilize Induced Demand factors in our rate development. Instead, our plan-specific pricing factors are based on an analysis of UnitedHealthcare Insurance Company's nationwide block of Small Group health insurance, which reflects over 10 million member months of experience. Our approach complies with the prohibition of rating for morbidity differences by normalizing out the cost differences attributable to morbidity as measured by HHS's risk adjustment mechanism.

Historical UnitedHealthcare experience was used to develop the actuarial value and cost sharing adjustment.

Provider network, delivery system and utilization management adjustment

Any adjustments for these items are included in the plan relativity factors.

Distribution and Administrative Costs

Distribution and administrative costs include premium tax, risk adjustment user fees, SG&A, quality improvements, federal income tax, and after-tax income. Risk adjustment transfers, net reinsurance recoveries and exchange fees are excluded because they are accounted for in the market adjusted index rate.

Administrative Expense Load

The administrative expense load is a long-term estimate of administrative expenses, including selling expenses and general administrative expenses. This load does not vary by product or plan. These assumptions are based on the general ledger actual results for 2018 with known adjustments. Known adjustments include, but are not limited to, pay increases/raises for employees and administrative expenses as a result of Healthcare Reform and compliance requirements. The administrative expense allocation methodology used in pricing is appropriate because it is consistent with how UnitedHealthcare runs its business and how it allocates administrative costs for Statutory Filings and the Healthcare Reform Exhibits.

Profit and Risk Margin

The profit and risk margin is shown in Worksheet 2, Section III of the URRT. This target does not vary by product or plan.

The profit and risk margin is derived from the difference between the administrative expenses, taxes and fees, and 1 minus the target loss ratio.

The profit and risk margin results in an anticipated MLR that is above the minimum requirements as described in the Projected Loss Ratio section.

Taxes and Fees

Taxes and fees are expected to be 7.1% and include premium tax, exchange fees (if any), risk adjustment user fees, and federal income tax. The following is a breakdown of the taxes and fees.

Premium Taxes and Fees Allocation	Estimated % of Premium
Federal / State Income Tax on Profit & Risk Load	0.8%
Premium Tax	2.0%
ACA Taxes: Insurer Fee	2.7%
ACA Taxes: PCORI Fee	0.0%
ACA Taxes: Risk Adjustment User Fee	0.0%
ACA Taxes: Exchange User Fee	1.0%
All Other Taxes & Fees	0.6%
Total	7.1%

Marketplace user fees are applied as an adjustment to the Index Rate at the market level. The value reflects the expected mix of Marketplace and non-Marketplace enrollees.

Section 12: Calibration

Plan Adjusted Index Rates need to be calibrated to apply the allowable rating factors of age and geography in order to calculate the Consumer Adjusted Premium Rates. Calibration factors are applied uniformly to all plans.

Age Calibration

The calculated age curve calibration is 1.028, which equals one divided by the average age factor of the expected member distribution by age. The age factors used in this calculation are the DISB specified age curve.

Geographic Calibration

The geographic factor calibration is 1, which equals one divided by the expected average area factor. A table of the geographic rating factors is below.

Rating Area	Area Factor
1	1.000

Geographic rating factors are reviewed periodically versus UnitedHealthcare claims data that reflects unit cost differences by county. Such a review was conducted as part of our January 1, 2020 rate development.

Our analysis did not indicate that there were credible, material differences indicated by the comparison of currently approved area factors and the UHC data reflecting unit cost differences.

Population morbidity by area was not considered when determining geographic area factors.

Tobacco Calibration

Tobacco factors are not used in the rating of these products, and no calibration is needed.

Calibrating the plan adjusted index rate to the age curve and geographic distribution results in the calibrated premium rate for each plan. The calibrated premium rate represents the preliminary premium rate charged to an individual before applying the consumer specific rating adjustments for age and area.

Section 13: Consumer Adjusted Premium Rate Development

The consumer adjusted premium rate is the final premium rate that is charged to an individual. It is developed by calibrating the plan adjusted index rate, and applying the consumer specific age and geographic rating factors. The calculation is provided below.

Plan Adjusted Index Rate
x Age Calibration Factor
x Geographic Calibration Factor
x Consumer Specific Age Rating Factor
x Consumer Specific Geographic Rating Factor
x Small Group Trend Adjustment
= Consumer Adjusted Premium Rate

Section 14: Projected Loss Ratio

The projected loss ratio using the federally prescribed MLR methodology for calendar year 2020 is 86.2%. UnitedHealthcare Insurance Company agrees to comply with the rebate requirements of 45 CFR Part 158 should the actual market MLR fall below the 80.0% requirement.

Since the last rate filing, UHC has elected to report a single quality improvement activity (QIA) amount of 0.8% of premium in lieu of actual QIA expenditures. This action is allowed per the 2019 Final Notice of Benefit and Payment Parameters (NBPP). Issuers electing to use the 0.8% must do it consistently across all states and markets subject to MLR, including amongst all affiliated issuers.

Section 15: AV Metal Values

The AV calculator used to calculate the AV metal values is based on a prescribed methodology and, therefore, does not necessarily reflect a reasonable estimate of the portion of allowed costs covered by the associated plan.

Some plans within this portfolio have cost sharing features that differ between individual and family coverage (i.e., when two or more people are covered by the plan). For all plans, consistent with the Actuarial Value Calculator inputs, we have used only the cost sharing provisions applicable for individuals in the actuarial value calculation.

The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. Additional details are provided below to describe the types of adjustments that were made for plan designs that are not directly compatible with the AV calculator.

Copays Paid in Conjunction with Coinsurance

Some of our plan designs include copays that are paid in conjunction with coinsurance in the coinsurance range. This benefit design is not directly compatible with the AV calculator, so the alternate methodology described in 45 CFR 156.135(b)(2) was used for the AV calculation. In order to modify the AV calculator input for a copay paid in conjunction with coinsurance, the following formula was used to estimate the insurer's cost share.

$$\text{Effective Insurer Coinsurance Rate} = (1 - \text{Member Copay}/\text{Average Unit Cost}) * (1 - \text{Member Coinsurance Rate})$$

The benefit was then marked as "Subject to Deductible" and "Subject to Coinsurance" with a "Coinsurance, if different" equal to the effective insurer coinsurance rate as calculated above. The copay was entered in the "Copay if separate" column.

The average unit cost was calculated based on the claims data included within the AV calculator continuance tables for each metal level. For example, if the plan was expected to fall within a Silver Metal Tier, the average unit cost was calculated from the Silver continuance tables. All enrollees within a continuance table whose claims exceeded \$1,500 were included in the calculation of the average unit cost for each benefit type.

Benefits that Vary Based on Place of Service

For some types of services, our plan designs include different benefit levels based on the place of service (i.e. physician's office, free standing facility, or outpatient hospital facility). To incorporate this differentiation in benefits, the Tiered Network Option was selected within the AV calculator, and utilization was assigned to each tier based on historical experience of affiliated carriers.

Physician Tiering

Select plan designs include lower cost sharing when members utilize providers we designate as meeting cost and efficiency standards. The tiered network functionality of the AV calculator was utilized to account for the cost sharing differences. The utilization of providers was based on a UnitedHealthcare study of differences in cost sharing and their effectiveness at driving utilization patterns.

Per Occurrence Copays

Select plan designs have per occurrence copays where a copay is paid before coinsurance is applied between the deductible and maximum out of pocket. These copays accumulate to the maximum out of pocket. To reflect this type of benefit an effective insurer coinsurance rate was calculated based on the average unit cost of the service and member coinsurance rate. The calculation is as follows:

$$\text{Effective Insurer Coinsurance Rate} = (1 - \text{Member Copay}/\text{Average Unit Cost}) * (1 - \text{Member Coinsurance Rate})$$

Some of the copays only apply to portions of the benefit categories that the AV calculator defines. For example, the Inpatient Hospital Services includes both physician and facility charges. To the extent the plan design per occurrence copay only applies to a portion of the services, the tiered Network functionality was utilized. The mix of services within the AV calculator benefit categories was based on historical experience.

The average unit cost was calculated based on the claims data included within the AV calculator continuance tables for each metal level where available.

Zero Dollar Copay for Dependents Under Age 19

Some plan designs assume no PCP copay applies for children under the age of 19. These copays were converted to an effective copay based on UnitedHealthcare historical membership distributions.

Laboratory and X-Ray Services

Some plan designs include a copay for minor lab and x-ray services. These copays are applied on a per visit basis. The AV Calculator assumes that the copays are on a per procedure basis. Therefore, the copay amounts are adjusted to reflect the equivalent per procedure amount.

Section 16: Membership Projections

The 2020 plan year membership projection was developed utilizing the experience period plan level membership distribution along with sales and persistency targets. Member distribution by plan was then based on current enrollment, taking into consideration changes in the portfolio of plans to be offered in 2020. Strictly for purposes of the URRT, we have projected membership by plan.

Section 17: Plan Type

A plan type of EPO & POS has been selected, which describes the plans exactly.

Section 18: Reliance

Due to responsibility allocation, I have relied upon other individuals within the UnitedHealthcare organization to provide certain assumptions. Although I have performed a limited review of the information and have not found it unreasonable or inconsistent, I have not reviewed it in enough detail to fully judge the reasonableness of the information due to the substantial amount of additional time required. I have therefore relied upon the expertise of those individuals who have developed the assumptions, and am providing the information required by Actuarial Standard of Practice 41, section 4.3. A list of reliances is included below.

UnitedHealthcare Finance Department

- Projected SG&A Assumption
- Total Projected Membership

UnitedHealthcare National Pricing Team

- Plan Relativity Modeling

UnitedHealthcare Healthcare Economics Department

- Plan Relativity Modeling

Section 19: Actuarial Certification

I, Ryan Morgan, FSA, MAAA, am a Director, Actuarial Services for UnitedHealthcare, and a member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products.

To the best of my knowledge and judgment, I certify that:

- The projected index rate is:
 - In compliance with state and federal statutes and regulations related to the development of the index rate and allowable rating factors (such as 45 CFR 156.80 and 147.102).
 - Developed in compliance with the applicable Actuarial Standards of Practice.
 - Reasonable in relation to the benefits provided and population anticipated to be covered.
 - Neither excessive, deficient, nor unfairly discriminatory.
- The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. The unique plan design actuarial certification required by 45 CFR Part 156.135 .
- The Part I Unified Rate Review Template does not demonstrate the process used by the issuer to develop their rates. Rather, it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges, and for certification that the index rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.

Ryan Morgan, FSA, MAAA

Actuarial Memorandum
UnitedHealthcare Insurance Company, NAIC #79413
DC Small Group Rate Filing

May 24, 2019

This rate filing presents proposed premium rates effective January 1, 2020 through December 31, 2020 for medical and Rx benefit plans to be sold by the UnitedHealthcare Insurance Company to small group employers.

The filing has been prepared as required by the “Reasonable Health Insurance Ratemaking and Health Care Reform Act of 2010”, as well as current ACA rules and more recent guidance from the DC Department of Insurance. This rate filing should not be used for any other purposes. Within that context, there are no limitations or constraints on the use or applicability of the rating items discussed herein. The intended user of this filing is the DC Department of Insurance.

The benefit plans and rates are for non-grandfathered employers. The proposed rates and rate factors are in Exhibit 1, which also displays the metal level and actuarial value of each benefit plan. Benefit plan descriptions are in Exhibit 2. Exhibit 4 identifies new benefit plans being added in 2020, and 2019 benefit plans with plan changes (uniform modification).

Responding to the items in the DC Rate Filing Checklist:

1. Purpose of Filing. UnitedHealthcare is filing for the first time rates for 2020. The proposed 1st quarter 2020 rates are on average 16.7% higher than our 1st quarter 2019 rates. The rate changes vary by benefit plan as we have realigned our price relationships between plans. In addition, we are filing for quarterly rate increases as follows: 2Q19 +2.0%, 3Q19 +2.1%, 4Q19 +2.0%. These quarterly rate increases are based on our trend rate of 8.3%. The average year-over-year renewal rate change is +15.6%, the minimum change on this entity is +10.1%, and the maximum change on this entity is +20.1%. Please see Exhibit 3 for detail on the rate changes.

2) Form Numbers. The form numbers are as follows: POL20.SHOP.I.2018.SG.DC, COC20.SHOP.I.2018.SG.DC, SBN20.CHP.I.2018.SG.DC.PL1, SBN20.CHP.I.2018.SG.DC.PL4, SBN20.CHP.I.2018.SG.DC.PL14, SBN20.CHP.I.2018.SG.DC.PL15, SBN20.CHP.I.2018.SG.DC.GO1, SBN20.CHP.I.2018.SG.DC.GO7, SBN20.CHP.I.2018.SG.DC.GO8, SBN20.CHP.I.2018.SG.DC.GO10, SBN20.CHP.I.2018.SG.DC.GO13, SBN20.CHP.I.2018.SG.DC.GO22, SBN20.CHP.I.2018.SG.DC.GO23, SBN20.CHP.I.2018.SG.DC.GO26, SBN20.CHP.I.2018.SG.DC.GO28, SBN20.CHP.I.2018.SG.DC.GO29, SBN20.CHP.I.2018.SG.DC.GO31, SBN20.CHP.I.2018.SG.DC.SL8, SBN20.CHP.I.2018.SG.DC.SL11, SBN20.CHP.I.2018.SG.DC.SL19, SBN20.CHC.I.2018.SG.DC.PL1, SBN20.CHC.I.2018.SG.DC.PL4, SBN20.CHC.I.2018.SG.DC.GO1, SBN20.CHC.I.2018.SG.DC.GO8, SBN20.CHC.I.2018.SG.DC.GO13, SBN20.CHC.I.2018.SG.DC.GO22, SBN20.CHC.I.2018.SG.DC.GO23, SBN20.CHC.I.2018.SG.DC.GO26, SBN20.CHC.I.2018.SG.DC.SL8, SBN20.CHC.I.2018.SG.DC.SL11, SBN20.CHC.I.2018.SG.DC.SL19, SBN20.CHC.I.2018.SG.DC.BR4, RID20.PDS.NET.I.2018.SG.DC, RID20.PDS.NET-OON.I.2018.SG.DC, RID20.PVCS.NET.I.2018.SG.DC, RID20.PVCS.NET-OON.I.2018.SG.DC, RID20.RX.NET.I.2018.SG.DC, RID20.RX.NET-OON.I.2018.SG.DC, SBN20.RX.NET.I.2018.SG.DC.20%, SBN20.RX.NET.I.2018.SG.DC.54075, SBN20.RX.NET.I.2018.SG.DC.104075, SBN20.RX.NET.I.2018.SG.DC.152550, SBN20.RX.NET.I.2018.SG.DC.1050100150, SBN20.RX.NET.I.2018.SG.DC.NONE,

SBN20.RX.NET-OON.I.2018.SG.DC.20%, SBN20.RX.NET-OON.I.2018.SG.DC.54075, SBN20.RX.NET-OON.I.2018.SG.DC.104075, SBN20.RX.NET-OON.I.2018.SG.DC.152550, SBN20.RX.NET-OON.I.2018.SG.DC.1050100150, RID20.ODYSSEYTRAVEL.I.2018.SG.DC, RID20.REALAP.I.2018.SG.DC

3) HIOS Product ID. The HIOS product ID's for the respective products are as follows: CH+/Ins (POS): 41842DC001 and CH/Ins (EPO): 41842DC004

4) Effective Date. 1/1/2020.

5) Market. The benefit plans will be offered in the small employer group market.

6) Status of Forms. The forms are open to new sales and are for non-grandfathered groups.

7) Benefits/Metal Levels. The benefits by plan are summarized in Exhibit 2. The metal level for each benefit plan is indicated in Exhibit 1.

7.1) AV Value. The actuarial value for each plan design using the HHS provided AV calculator is indicated in Exhibit 1. For plan designs that do not fit into the AV calculator, certification of the methodology and input used is in Exhibit B.

8) Average Rate Increase Requested

Incremental:

1Q20/4Q19: +8.0%

2Q20/1Q20: +2.0%

3Q20/2Q20: +2.1%

4Q20/3Q20: +2.0%

Year-over-year renewal:

1Q20/1Q19: +16.7%

2Q20/2Q19: +16.0%

3Q20/3Q19: +15.4%

4Q20/4Q19: +14.6%

Average year-over-year renewal: +15.6%

9) Maximum Rate Increase Requested

Incremental:

1Q20/4Q19: +11.1%

2Q20/1Q20: +2.0%

3Q20/2Q20: +2.1%

4Q20/3Q20: +2.0%

Year-over-year renewal: +20.1%

10) Minimum Rate Increase Requested

Incremental:

1Q20/4Q19: 3.7%

2Q20/1Q20: +2.0%

3Q20/2Q20: +2.1%

4Q20/3Q20: +2.0%

Year-over-year renewal: +10.1%

11) Absolute Maximum Premium Increase. The absolute maximum year-over-year renewal increase, including one year of aging (20 to 21, which is an 11.1% increase in age factor), is +33.3%.

12) Average Renewal Rate Increase for a Year. The average renewal rate change by HIOS product ID is: 41842DC001 +15.7%, 41842DC004 +13.9% .

13) Rate Change History.

10/1/19: +2.7%
7/1/19: +2.6%
4/1/19: +2.6%
1/1/19: +1.1%
10/1/18: +1.7%
7/1/18: +1.8%
4/1/18: +1.7%
1/1/18: -3.0%
10/1/17: +2.6%
7/1/17: +2.5%
4/1/17: +2.5%
1/1/17: -5.7%
10/1/16: +1.9%
7/1/16: -3.2%
4/1/16: +1.9%
1/1/16: +5.0%

14) Exposure. As of February, 2019:

Policies: 1,674
Certificates: 7,013
Covered Lives: 11,950

15) Member Months. See Exhibit A.

16) Past Experience. See Exhibit A.

17) Index Rate. \$503.27

17.1) Rate Development.

The base experience is shown in Exhibit A.

We are proposing to set our 1st quarter 2020 on average 8.0% higher than our current 4th quarter 2019 rates, and then apply quarterly rate increases in each of the last three quarters of 2020. The quarterly rate increases are equivalent to an annual 8.3% trend. As shown in Exhibit D, our analysis indicates that these rates will yield a 79.5% underwriting loss ratio (claims divided by premium which includes PPACA fees).

The 2020 base rate of \$795.99 is calculated as follows: (2019 Base Rate) x (Trend with PPACA fees) x (Revenue Neutral Base Rate Adjustment) x (1/1/2020 Rate Change) x (Risk Merger Adjustment)

2020 Base Rate = (\$652.85) x (1.1072) x (1.028) x (1.031) x (1.039) = \$795.99

18) Credibility Assumption. We have set our rate levels based on the combined DC experience on our small group licenses, which we believe is credible.

19) Trend Assumption. See Exhibit T. At UnitedHealthcare, we have a team of actuaries whose responsibilities include developing forward-looking trend projections and monitoring historical performance in relation to trend. We rely on this team to provide guidance on trends appropriate for DC rate development.

20) Cost Sharing Changes and 21) Benefit Changes. Changes to member cost sharing were required for certain benefit plans. Use of the new federal Actuarial Value (AV) Calculator led to some benefit plans falling outside the allowed +2% /-4% AV metal ranges. Benefit plan changes were made to move these plans back into the allowed AV ranges. The benefit changes for these plans, and the estimated cost value of the changes, is shown in Exhibit 4.

22) Plan Relativities. We refined the medical plan price relativities to reflect the most recent methodology update using the most recent available models. The medical plan price relativities were developed using our pricing model ARC (Actuarial Relativity Calculator). The ARC model is based on UnitedHealthcare nationwide experience data, containing utilization frequencies and unit costs by service category, and claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan into ARC. The expected net-to-allowed relativity for each plan is then used to develop the plan relativities for each benefit plan. All benefit plans are priced consistently with each other, with the rates different only by the estimated value of the benefit differences. The prescription drug plan relativities were similarly developed using our ARC Pricing model: this model, based on nationwide UnitedHealthcare prescription drug experience, values the cost differences of Rx copays by tier, and other plan cost sharing features such as Rx deductibles and coinsurance.

Using the new ARC model (used for both medical and Rx price relativities), we set the new 2020Q1 base rates to be 2.8% higher, using our 2018 membership by benefit plan as weights, than the 2019Q1 rates. This is demonstrated in Exhibit 6.

23) Rating Factors. We are resetting our 1st quarter 2020 Effective Date Adjustment (EDA) factors to 1.000. Rating factors are displayed on Exhibit 1. Exhibit 3 details the changes to rating factors.

23.1) Wellness Programs. No wellness programs are included in this rate filing.

24) Distribution of Rate Increases. The distribution of rate increases is shown in the DISB Actuarial Memorandum Dataset.

25) Claim Reserve Needs. The incurred period used for the base period is 1/1/18 through 12/31/18, using claims paid through 2/28/19. The claim reserve amounts are included in Exhibit A. A description of our reserving methodology is included in the Part III Actuarial Memorandum.

26) Administrative Costs of Programs that Improve Health Care Quality. The Improving Health Care Quality costs in total for our small group licenses is 0.8% of premium.

27) Taxes and Licensing or Regulatory Fees. The amount of taxes, licenses, and fees subtracted from premium in the denominator of the medical loss ratio calculation is 7.1%. Differences from amounts in the Supplemental Health Care Exhibit are due to different amounts of PPACA fees by year, and different Federal Income Taxes due to different underwriting loss ratios.

28) Medical Loss Ratio (MLR). The anticipated Federal MLR is 86.2%, which is greater than the 80% minimum. The estimated Federal MLR components, adjustments, and formula are as follows:

- 79.5% Underwriting loss ratio
- 0.8% QI/HIT Medical costs added
- 7.1% Taxes, regulatory fees and assessments

MLR formula: $[(UW\ LR) \times (1 + QIT)] / (1 - \text{taxes})$

29) Risk Adjustment. Based on recently released results, we will be a 2.7% risk payer in total for our small group licenses in 2019. Additionally, because this rate filing assumes the merger of the individual and small group risk adjustment, we would actually be a larger payer of 6.3%; this is assumed in the underwriting loss ratio development.

30) Past and Prospective Loss Experience Within and Outside the State. Only loss experience on DC plans, written on DC employers, was used in the development of the rates. This experience does include medical services provided outside DC, to employees of DC employers who live outside DC, or to DC residents who obtain medical services outside DC. We have set our rate levels based on the total overall experience of our small group licenses in DC, which we believe is credible, thus not requiring use of loss experience outside the state.

31) A Reasonable Margin for Reserve Needs. The profit margin assumed in the development of the proposed rates is 3.0% of premium. This assumption was derived as: 100% – projected underwriting loss ratio – projected expenses (including PPACA fees) as % of premium – projected taxes (including FIT) as % of premium. This methodology has not changed from prior filings.

32) Past and Prospective Expenses. The expenses assumed in the development of the proposed rates are as follows. These are the total average expenses for the small group licenses. Except for difference in PPACA fees which vary by calendar year, they are forecasted 2020 year expenses that are expected to continue in the future.

<u>% of Premium</u>	<u>Expense Category</u>
2.9%	Salaries, wages, employment taxes, and other employee benefits
2.6%	Commissions
7.1%	Taxes, licenses, and other regulatory fees
1.6%	Cost containment programs / quality improvement activities
3.4%	<u>All other administrative expenses</u>
17.5%	Total

33) Any Other Relevant Factors Within and Outside the State. None.

34) Other. None.

35) Actuarial Certification.

I, Ryan Morgan, a Director at UnitedHealthcare, am an FSA and MAAA. I satisfy the 2018 continuing professional development requirements of the Academy and therefore am qualified to issue this 2019 statement of actuarial opinion. I have reviewed applicable ASOPs during the preparation of this rate filing. There are no known cautions with regard to risk or uncertainty in the items discussed in this rate filing. There are no conflicts of interest with regards to my production of this rate filing.

I certify that the anticipated loss ratio meets the minimum requirement, the rates are reasonable in relation to benefits, the filing complies with the laws and regulations of DC and all applicable Actuarial Standards of Practice, including ASOP No. 8, and the rates are not unfairly discriminatory.

Ryan Morgan, FSA, MAAA

Section 1: Purpose

The following is a rate filing prepared by UnitedHealthcare Insurance Company. This filing has been prepared to provide the necessary information required by the Department of Health and Human Services and the state of District of Columbia. The purpose of this memorandum is to provide information relevant to the Federal Part I Unified Rate Review Template (URRT).

This filing establishes rates intended to be used for non-grandfathered PPACA compliant small group health benefit plans sold on the Small Business Health Options Program in District of Columbia for the 2020 plan year. A rate increase is being filed at this time. The rates and other information in this submission are based on the current regulations and guidance from HHS. Changes to this filing may be necessary if there are revisions to the regulations or updated guidance from HHS.

This memorandum is intended solely for the information of and use by the Department of Health and Human Services and the District of Columbia Department of Insurance and Financial Services. It will demonstrate compliance with state and federal laws and regulations related to the development of the index rate and allowable rating factors and is not intended to be used for any other purpose.

The attached document contains confidential, proprietary information and trade secrets. This information is strictly confidential and protected from disclosure by D.C. Code section 31-3303.08(b) and D.C. Code section 2-534(a)(1). If the prohibition against disclosure by the Department of Insurance and Financial Services is reassessed at a later date, it may not be disclosed to any other state or federal regulatory agencies unless the recipient agrees in writing prior to receipt to maintain the confidentiality of the information.

Section 2: General Information

Company Identifying Information

Company Legal Name:	UnitedHealthcare Insurance Company
State:	District of Columbia
HIOS Issuer ID:	41842
Market:	Small Business, 1-50
Proposed Effective Date:	January 01,2020

Primary Contact Information

Name:	Ryan Morgan, FSA, MAAA
Telephone Number:	414-443-4287
Email Address:	ryan_morgan2@uhc.com

Section 3: Proposed Rate Changes

The proposed change in rates for this filing is 15.56% compared to the prior filing. These changes are applied uniformly to all plans within a rating area. The proposed pricing trend is 8.29% annually.

The primary drivers of the proposed rate changes are the following:

- Changes in medical service costs
 - Increasing Cost of Medical Services – Annual increases in reimbursement rates to health care providers – such as hospitals, doctors and pharmaceutical companies.
 - Increased Utilization – The number of office visits and other services continues to grow. In addition, total health care spending will vary by the intensity of care and/or use of different types of health services. Patients who are sicker generally have a higher intensity of health care utilization. The price of care can be affected by the use of expensive procedures such as surgery vs. simply monitoring or providing medications.
 - Higher Costs from Deductible Leveraging – Health care costs continue to rise every year. If deductibles and copayments remain the same, a greater percentage of health care costs need to be covered by health insurance premiums each year.
 - Cost shifting from the public to the private sector – Reimbursements from the Center for Medicare and Medicaid Services (CMS) to hospitals do not generally cover all of the cost of care. The cost difference is being shifted to private health plans. Hospitals typically make up this difference by charging private health plans more.
 - Impact of New Technology – Improvements to medical technology and clinical practice often result in the use of more expensive services - leading to increased health care spending and utilization.
- Administrative costs and anticipated profit
 - UnitedHealthcare works to directly control administrative expenses by adopting better processes and technology and through the development of programs and innovations that make health care more affordable. We have led the marketplace by introducing key innovations that make health care services more accessible and affordable for customers, improve the quality and coordination of health care services, and help individuals and their physicians make more informed health care decisions.
 - Additionally, UnitedHealthcare indirectly controls medical cost payments by using appropriate payment structures with providers and facilities. UnitedHealthcare's goal is to control costs, maximize efficiency, and work closely with physicians and providers to obtain the best value and coverage.
 - State and/or Federal government imposed taxation and fees are additional significant factors that impact health care spending. These fees include ACA taxes and fees which will have increased health insurance costs and need to be reflected in premium.
- Changes that vary by plan
 - All plan relativity factors have been updated to reflect UnitedHealthcare's most recent pricing model.
 - The impact of any changes to plans that have occurred due to uniform modification are also reflected in the updated plan relativity factors. Please see the "Plan Adjusted Index Rate" section of the memorandum for more detail on these changes.

We refined the medical and pharmacy plan price relativities to reflect the most recent pricing methodology and pricing models. The methodology is based on UnitedHealthcare nationwide experience data, which contains utilization frequencies and unit costs by service category, in addition to claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan. The expected paid-to-allowed relativities and expected utilization differences due to differences in cost sharing for each plan are then used to develop the plan factors for each benefit plan. All benefit plans are priced consistently with each other, with the rates differing by the estimated value of the benefits and the expected utilization differences due to differences in cost sharing. The utilization differences do not reflect differences due to health status. The net impact of all changes by plan can be found in Worksheet 2, Section I of the Unified Rate Review Template.

Significant factors driving the proposed rate changes are discussed in further detail in Section 6 (*Projection Factors*) and Section 7 (*Credibility Manual Rate Development*) of this memorandum.

Section 4: Experience and Current Period Premium, Claims and Enrollment

Paid Through Date

The experience period is 1/1/2018 through 12/31/2018, with claims paid through 2/28/2019.

Support for estimate of incurred but not paid claims

Historical claims are categorized both by the month in which they were incurred and the month in which they were adjudicated. For incurral months with sufficient adjudicated claim experience, incurred claims are estimated by applying completion factors derived from the historical claims. Adjustments are made based on specific knowledge of the entity (e.g., catastrophic claims, pended claims, etc.). For incurral months where adjudicated claim experience is not sufficient to rely on completion factors, a PMPM is used to estimate incurred claims. PMPM estimates are based on expected claim seasonality patterns, monthly calendar days and work days, emerging claim trends, and other factors.

The same completion factors are applied to both incurred and allowed claims amounts.

Experience Period Risk Adjustment

Risk Adjustments for the experience period are not known at this time.

Our 2018 risk adjustment transfer PMPM is estimated using data provided to UnitedHealthcare as a result of our participation in a multi-state study done by a large, independent actuarial consulting firm. Based on the results of that study, we expect that risk level of the membership insured by UnitedHealthcare Insurance Company to be lower than the market. This results in an approximate adjustment of \$5.66 PMPM.

Experience Period Index Rates

Experience Period Index Rates are defined as the allowed claims PMPM for Essential Health Benefits during the Experience Period. With the introduction of the URRT 5.0 and the breakout of service level EHB claims, the information provided reflects a reasonable estimate of the EHBs.

Section 5: Benefit Categories

Claims were assigned to each of the benefit categories based on where services were administered and the types of medical services rendered. The benefit categories were defined by our claims department using standard industry definitions.

Inpatient Hospital

Includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing, and other services provided in an inpatient facility setting and billed by the facility.

Outpatient Hospital

Includes non-capitated facility services for surgical, emergency room, laboratory, radiology, therapeutic, observation, and other services provided in an outpatient facility setting and billed by the facility.

Professional

Includes non-capitated primary care, specialist care, therapeutic, the professional component of laboratory and radiology, and other professional services, other than hospital based professionals whose payments are included in facility fees.

Other Medical

Includes non-capitated ambulatory, home health care, durable medical equipment, prosthetics, supplies, vision exams, dental services and other services.

Capitation

Includes all services provided under one or more capitated agreements.

Prescription Drug

Includes drugs dispensed by a pharmacy. This amount is net of rebates received from drug manufacturers.

Section 6: Projection Factors

Trend

Two years of annual trend were applied to our 2018 experience to project it to the 2020 rating period. Our most recent analysis indicates annual trend in the state of District of Columbia for the 2019 and 2020 calendar years will be 8.1% and 8.3%, respectively. The table below details the components of each trend factor.

Trend Component	2019	2020
Unit Cost	3.90%	4.10%
Utilization	3.30%	3.30%
Total	8.10%	8.30%

UnitedHealthcare develops forward-looking medical expense estimates based on a number of considerations. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, and benefit leveraging identified for each category. Future trends are developed based on a projection of each component.

Utilization rates by category are measured and projected. Forward looking utilization levels are developed based on emerging market level data, supplemented by regional and/or national level utilization data. Macro-economic data is often used to develop assumptions regarding directional changes in national health care consumption rates. UnitedHealthcare uses same store analysis to reflect utilization.

Market-level unit cost projections are developed based on evaluations of current and anticipated provider contract economics, as well as consideration to both current and expected changes in non-contracted provider cost exposure. Unit cost projections also consider the estimated cost impact of new technologies, service availability/mandates, or other factors that might influence the mix of procedures. Unit cost is based on our contractual changes with providers.

In addition, market-level healthcare affordability activities that are expected to impact forward-looking medical costs are recognized. Depending on the nature of individual initiatives, the impact may be recognized in one or more of the component cost items discussed above. Only incremental activities are recognized for this purpose in the expected trend impact for any particular period.

Section 7: Credibility Manual Rate Development

Adjustments Made to the Data

Adjustments similar to the ones described in Section 6 were applied to the experience of the credibility manual to project it to the projection period. In addition, the credibility manual was adjusted to reflect the average age, geography, plan design and morbidity of the adjusted experience period claims.

Inclusion of Capitation Payments

Capitation payments are included in both the experience and projections.

Section 8: Credibility of Experience

The experience for this legal entity contains 127,463 member months which does not exceed the 360,000 member months needed to be considered fully credible. As such the credibility of UnitedHealthcare Insurance Company is set to 0%, and the remaining uses the credibility manual described above.

Consideration was given to ASOP #25 when determining the credibility and appropriateness of the experience and the manual rate. The manual rate is sufficiently independent from the experience and can be blended with it for purposes of rate development.

Section 9: Development of Projected Index Rate

The experience period index rate is \$408.45 PMPM.

The Index Rate For the experience period is approximately 98.52% of allowed claims due to benefits in excess of EHBs. The reported percentage amount is based on experience data. The index rate of the experience period has been reported accordingly. The Index Rate in the projection period represents 98.52% of allowed claims due to the benefits in excess of EHBs.

The projected index rate of \$503.27 was calculated by trending and adjusting the experience period index rate to the projection period, including blending the experience with a manual rate if the experience was not fully credible. It is established in accordance with the requirements of 45 CFR §156.80(d). See sections 6, 7, and 8 of this memo for more details.

Section 10: Development of the Market-wide Index Rate

Reinsurance

There is no reinsurance program in force for this business, and as a result there are no reinsurance recoveries to report.

Risk Adjustment Payment/Charge

UnitedHealthcare Insurance Company anticipates paying for risk adjustment transfers in the state of District of Columbia for the 2020 plan year, which has been grossed up to \$13.54 PMPM on an allowed basis for purposes of calculating the Market-wide Adjusted Index Rate. We are assuming the risk level of our business relative to that of our competitors for the 2020 plan year will be similar to what it was in the 2018 plan year. Since risk adjustment transfer payments are a function of the market level premium, our 2020 risk adjustment transfer PMPM amount is calculated by adjusting our estimated 2018 risk adjustment transfer PMPM amount for the projected market level trend, changes in reinsurance fees and recoveries, and other adjustments based on the overall financial performance of the market.

Exchange User Fees

Marketplace user fees are applied as an adjustment to the Index Rate at the market level. The value reflects the expected mix of Marketplace and non-Marketplace enrollees.

The market adjusted index rate includes market-wide adjustments for reinsurance, risk adjustment transfers and exchange user fees (if any).

Index Rate	Net Federal or State Reinsurance (allowed basis)	Risk Adjustment Payment/Charge (allowed basis)	Exchange Fee Adjustment (allowed basis)	Market Adjusted Index Rate
\$503.27	\$0.00	(\$13.54)	0.00%	\$516.81

The figures above may not tally exactly due to rounding of the display.

Section 11: Plan Adjusted Index Rate

Actuarial Value and Cost Sharing Adjustment

UnitedHealthcare has a proprietary pricing model that was used in developing the actuarial value and cost sharing adjustment for each plan. The model calculates plan relativity factors for medical and pharmacy benefits. Also included under the actuarial value and cost sharing adjustment are adjustments for leveraging and the difference between the average plan relativity factor and the projected paid to allowed ratio.

UnitedHealthcare Insurance Company does not utilize Induced Demand factors in our rate development. Instead, our plan-specific pricing factors are based on an analysis of UnitedHealthcare Insurance Company's nationwide block of Small Group health insurance, which reflects over 10 million member months of experience. Our approach complies with the prohibition of rating for morbidity differences by normalizing out the cost differences attributable to morbidity as measured by HHS's risk adjustment mechanism.

Historical UnitedHealthcare experience was used to develop the actuarial value and cost sharing adjustment.

Provider network, delivery system and utilization management adjustment

Any adjustments for these items are included in the plan relativity factors.

Distribution and Administrative Costs

Distribution and administrative costs include premium tax, risk adjustment user fees, SG&A, quality improvements, federal income tax, and after-tax income. Risk adjustment transfers, net reinsurance recoveries and exchange fees are excluded because they are accounted for in the market adjusted index rate.

Administrative Expense Load

The administrative expense load is a long-term estimate of administrative expenses, including selling expenses and general administrative expenses. This load does not vary by product or plan. These assumptions are based on the general ledger actual results for 2018 with known adjustments. Known adjustments include, but are not limited to, pay increases/raises for employees and administrative expenses as a result of Healthcare Reform and compliance requirements. The administrative expense allocation methodology used in pricing is appropriate because it is consistent with how UnitedHealthcare runs its business and how it allocates administrative costs for Statutory Filings and the Healthcare Reform Exhibits.

Profit and Risk Margin

The profit and risk margin is shown in Worksheet 2, Section III of the URRT. This target does not vary by product or plan.

The profit and risk margin is derived from the difference between the administrative expenses, taxes and fees, and 1 minus the target loss ratio.

The profit and risk margin results in an anticipated MLR that is above the minimum requirements as described in the Projected Loss Ratio section.

Taxes and Fees

Taxes and fees are expected to be 7.1% and include premium tax, exchange fees (if any), risk adjustment user fees, and federal income tax. The following is a breakdown of the taxes and fees.

Premium Taxes and Fees Allocation	Estimated % of Premium
Federal / State Income Tax on Profit & Risk Load	0.8%
Premium Tax	2.0%
ACA Taxes: Insurer Fee	2.7%
ACA Taxes: PCORI Fee	0.0%
ACA Taxes: Risk Adjustment User Fee	0.0%
ACA Taxes: Exchange User Fee	1.0%
All Other Taxes & Fees	0.6%
Total	7.1%

Marketplace user fees are applied as an adjustment to the Index Rate at the market level. The value reflects the expected mix of Marketplace and non-Marketplace enrollees.

Section 12: Calibration

Plan Adjusted Index Rates need to be calibrated to apply the allowable rating factors of age and geography in order to calculate the Consumer Adjusted Premium Rates. Calibration factors are applied uniformly to all plans.

Age Calibration

The calculated age curve calibration is 1.028, which equals one divided by the average age factor of the expected member distribution by age. The age factors used in this calculation are the DISB specified age curve.

Geographic Calibration

The geographic factor calibration is 1, which equals one divided by the expected average area factor. A table of the geographic rating factors is below.

Rating Area	Area Factor
1	1.000

Geographic rating factors are reviewed periodically versus UnitedHealthcare claims data that reflects unit cost differences by county. Such a review was conducted as part of our January 1, 2020 rate development.

Our analysis did not indicate that there were credible, material differences indicated by the comparison of currently approved area factors and the UHC data reflecting unit cost differences.

Population morbidity by area was not considered when determining geographic area factors.

Tobacco Calibration

Tobacco factors are not used in the rating of these products, and no calibration is needed.

Calibrating the plan adjusted index rate to the age curve and geographic distribution results in the calibrated premium rate for each plan. The calibrated premium rate represents the preliminary premium rate charged to an individual before applying the consumer specific rating adjustments for age and area.

Section 13: Consumer Adjusted Premium Rate Development

The consumer adjusted premium rate is the final premium rate that is charged to an individual. It is developed by calibrating the plan adjusted index rate, and applying the consumer specific age and geographic rating factors. The calculation is provided below.

Plan Adjusted Index Rate
x Age Calibration Factor
x Geographic Calibration Factor
x Consumer Specific Age Rating Factor
x Consumer Specific Geographic Rating Factor
x Small Group Trend Adjustment
= Consumer Adjusted Premium Rate

Section 14: Projected Loss Ratio

The projected loss ratio using the federally prescribed MLR methodology for calendar year 2020 is 86.2%. UnitedHealthcare Insurance Company agrees to comply with the rebate requirements of 45 CFR Part 158 should the actual market MLR fall below the 80.0% requirement.

Since the last rate filing, UHC has elected to report a single quality improvement activity (QIA) amount of 0.8% of premium in lieu of actual QIA expenditures. This action is allowed per the 2019 Final Notice of Benefit and Payment Parameters (NBPP). Issuers electing to use the 0.8% must do it consistently across all states and markets subject to MLR, including amongst all affiliated issuers.

Section 15: AV Metal Values

The AV calculator used to calculate the AV metal values is based on a prescribed methodology and, therefore, does not necessarily reflect a reasonable estimate of the portion of allowed costs covered by the associated plan.

Some plans within this portfolio have cost sharing features that differ between individual and family coverage (i.e., when two or more people are covered by the plan). For all plans, consistent with the Actuarial Value Calculator inputs, we have used only the cost sharing provisions applicable for individuals in the actuarial value calculation.

The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. Additional details are provided below to describe the types of adjustments that were made for plan designs that are not directly compatible with the AV calculator.

Copays Paid in Conjunction with Coinsurance

Some of our plan designs include copays that are paid in conjunction with coinsurance in the coinsurance range. This benefit design is not directly compatible with the AV calculator, so the alternate methodology described in 45 CFR 156.135(b)(2) was used for the AV calculation. In order to modify the AV calculator input for a copay paid in conjunction with coinsurance, the following formula was used to estimate the insurer's cost share.

$$\text{Effective Insurer Coinsurance Rate} = (1 - \text{Member Copay}/\text{Average Unit Cost}) * (1 - \text{Member Coinsurance Rate})$$

The benefit was then marked as "Subject to Deductible" and "Subject to Coinsurance" with a "Coinsurance, if different" equal to the effective insurer coinsurance rate as calculated above. The copay was entered in the "Copay if separate" column.

The average unit cost was calculated based on the claims data included within the AV calculator continuance tables for each metal level. For example, if the plan was expected to fall within a Silver Metal Tier, the average unit cost was calculated from the Silver continuance tables. All enrollees within a continuance table whose claims exceeded \$1,500 were included in the calculation of the average unit cost for each benefit type.

Benefits that Vary Based on Place of Service

For some types of services, our plan designs include different benefit levels based on the place of service (i.e. physician's office, free standing facility, or outpatient hospital facility). To incorporate this differentiation in benefits, the Tiered Network Option was selected within the AV calculator, and utilization was assigned to each tier based on historical experience of affiliated carriers.

Physician Tiering

Select plan designs include lower cost sharing when members utilize providers we designate as meeting cost and efficiency standards. The tiered network functionality of the AV calculator was utilized to account for the cost sharing differences. The utilization of providers was based on a UnitedHealthcare study of differences in cost sharing and their effectiveness at driving utilization patterns.

Per Occurrence Copays

Select plan designs have per occurrence copays where a copay is paid before coinsurance is applied between the deductible and maximum out of pocket. These copays accumulate to the maximum out of pocket. To reflect this type of benefit an effective insurer coinsurance rate was calculated based on the average unit cost of the service and member coinsurance rate. The calculation is as follows:

$$\text{Effective Insurer Coinsurance Rate} = (1 - \text{Member Copay}/\text{Average Unit Cost}) * (1 - \text{Member Coinsurance Rate})$$

Some of the copays only apply to portions of the benefit categories that the AV calculator defines. For example, the Inpatient Hospital Services includes both physician and facility charges. To the extent the plan design per occurrence copay only applies to a portion of the services, the tiered Network functionality was utilized. The mix of services within the AV calculator benefit categories was based on historical experience.

The average unit cost was calculated based on the claims data included within the AV calculator continuance tables for each metal level where available.

Zero Dollar Copay for Dependents Under Age 19

Some plan designs assume no PCP copay applies for children under the age of 19. These copays were converted to an effective copay based on UnitedHealthcare historical membership distributions.

Laboratory and X-Ray Services

Some plan designs include a copay for minor lab and x-ray services. These copays are applied on a per visit basis. The AV Calculator assumes that the copays are on a per procedure basis. Therefore, the copay amounts are adjusted to reflect the equivalent per procedure amount.

Section 16: Membership Projections

The 2020 plan year membership projection was developed utilizing the experience period plan level membership distribution along with sales and persistency targets. Member distribution by plan was then based on current enrollment, taking into consideration changes in the portfolio of plans to be offered in 2020. Strictly for purposes of the URRT, we have projected membership by plan.

Section 17: Plan Type

A plan type of EPO & POS has been selected, which describes the plans exactly.

Section 18: Reliance

Due to responsibility allocation, I have relied upon other individuals within the UnitedHealthcare organization to provide certain assumptions. Although I have performed a limited review of the information and have not found it unreasonable or inconsistent, I have not reviewed it in enough detail to fully judge the reasonableness of the information due to the substantial amount of additional time required. I have therefore relied upon the expertise of those individuals who have developed the assumptions, and am providing the information required by Actuarial Standard of Practice 41, section 4.3. A list of reliances is included below.

UnitedHealthcare Finance Department

- Projected SG&A Assumption
- Total Projected Membership

UnitedHealthcare National Pricing Team

- Plan Relativity Modeling

UnitedHealthcare Healthcare Economics Department

- Projected Trend
- Claims Reserves
- ACO/Premium Designated Provider
- Cost Savings Estimates
- Plan Relativity Modeling

Section 19: Actuarial Certification

I, Ryan Morgan, FSA, MAAA, am a Director, Actuarial Services for UnitedHealthcare, and a member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products.

To the best of my knowledge and judgment, I certify that:

- The projected index rate is:
 - In compliance with state and federal statutes and regulations related to the development of the index rate and allowable rating factors (such as 45 CFR 156.80 and 147.102).
 - Developed in compliance with the applicable Actuarial Standards of Practice.
 - Reasonable in relation to the benefits provided and population anticipated to be covered.
 - Neither excessive, deficient, nor unfairly discriminatory.
- The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CRF 156.80(d)(2) were used to generate plan level rates.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. The unique plan design actuarial certification required by 45 CFR Part 156.135 .
- The Part I Unified Rate Review Template does not demonstrate the process used by the issuer to develop their rates. Rather, it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges, and for certification that the index rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.

Efren Tanhehco, Actuary
DC Department of Insurance Securities & Banking
810 First Street, NE Suite 701
Washington, DC 20002

Re: UnitedHealthcare Insurance Company
Small Group Rate Filing

Dear Mr. Tanhehco:

This rate filing presents proposed premium rates effective January 1, 2020 through December 31, 2020 for medical and Rx benefit plans to be sold by the UnitedHealthcare Insurance Company to small group employers. The benefit plans and rates are for non-grandfathered employers.

A. Company Name: UnitedHealthcare Insurance Company

B. NAIC Company Code: 79413

C. SERFF Tracking #: UHLC-131953607

D. Date Filing Submitted: 05/24/2019

E. Proposed Effective Date: 1/1/2020

F. Type of Product: Medical and prescription drug insurance, offered both in-network only and in-network with out-of-network benefits.

G. Market: Small group, employers with 50 or fewer eligible employees.

H. Scope and Purpose of Filing: 2020 rates for small group plans meeting the requirements of the Patient Protection and Affordable Care Act (PPACA).

I. Initial Filing or Rate Change: Initial filing for 2020, rate change to previously filed and approved 2019 rates.

J. Rates apply to existing DC policyholders.

K. Overall Premium Impact of Filing on DC Policyholders: An average 15.6% renewal rate increase. This includes the impact of merging the individual and small group risk pools.

L. Contact Information: Ryan Morgan, 414-443-4287; Email: ryan_morgan2@uhc.com.

If you have any questions, please do not hesitate to reach out.

Sincerely,

Ryan Morgan, FSA, MAAA
Director, Actuarial Services

Rating Area Data Collection

Rating Area	Rating Factor
Rating Area 1	1.0000

Rate Filing Justification Part II (Plain Language Summary)

Pursuant to 45 CFR 154.215, health insurance issuers are required to file Rate Filing Justifications. Part II of the Rate Filing Justification for rate increases and new submissions must contain a written description that includes a simple and brief narrative describing the data and assumptions that were used to develop the proposed rates. The Part II template below must be filled out and uploaded as an Adobe PDF file under the Consumer Disclosure Form section of the Supporting Documentation tab.

Name of Company UnitedHealthcare Insurance Company
 SERFF tracking number UHLC-131909980
 Submission Date May 24, 2019
 Product Name Medical and Prescription Drug Insurance
 Market Type Individual Small Group
 Rate Filing Type Rate Increase New Filing

Scope and Range of the Increase:

The 15.6% increase is requested because:

The biggest drivers of our rate increase is trend and the return of the ACA fees. Also this rate filing assumes the merger of the individual and small group risk adjustment, therefore we are increasing our base rates by an additional 3.9%.

This filing will impact:

of policyholder's 1674

of covered lives 11950

The average, minimum and maximum rate changes increases are:

- Average Rate Change: The average premium change, by percentage, across all policy holders if the filing is approved 15.6 %
- Minimum Rate Change: The smallest premium increase (or largest decrease), by percentage, that any one policy holder would experience if the filing is approved 10.1 %
- Maximum Rate Change: The largest premium increase, by percentage, that any one policy holder would experience if the filing is approved 20.1 %

Individuals within the group may vary from the aggregate of the above increase components as a result of:

The group's rate is based on the benefit plan selected and the attained ages of the members at the beginning of the policy period.

Financial Experience of Product

The overall financial experience of the product includes:

Some membership growth but an increase in trend.

The rate increase will affect the projected financial experience of the product by:

The projected loss ratio using the Federal prescribed MLR methodology is 86.2%

Components of Increase

The request is made up of the following components:

Trend Increases – 8.1 % of the 15.6 % total filed increase

1. Medical Utilization Changes – Defined as the increase in total plan claim costs not attributable to changes in the unit cost of underlying services, or renegotiation of provider contracts. Examples include changes in the mix of services utilized, or an increase/decrease in the frequency of service utilization.

This component is 4.2 % of the 15.6 % total filed increase.

2. Medical Price Changes – Defined as the increase in total plan claim costs attributable to changes in the unit cost of underlying services, or renegotiation of provider contracts.

This component is 3.9 % of the 15.6 % total filed increase.

Other Increases – 6.9 % of the 15.6 % total filed increase

1. Medical Benefit Changes Required by Law – Defined as any new mandated plan benefit changes, as mandated by either State or Federal Regulation.

This component is % of the % total filed increase.

2. Medical Benefit Changes Not Required by Law – Defined as changes in plan benefit design made by the company, which are not required by either State or Federal Regulation.

This component is -1.6 % of the 15.6% total filed increase.

3. Changes to Administration Costs – Defined as increases in the costs of providing insurance coverage. Examples include claims payment expenses, distribution costs, taxes, and general business expenses such as rent, salaries, and overhead.

This component is 1.4 % of the 15.6% total filed increase.

4. Changes to Profit Margin – Defined as increases to company surplus or changes as an additional margin to cover the risk of the company.

This component is % of the % total filed increase.

5. Other – Defined as:

Base rate increase of 3.1% and merged risk adjustment of 3.9%

Note: Components are multiplicative, so sum may differ slightly from total rate increase %.

This component is 7.1 % of the 15.6 % total filed increase.

**RATE FILING REQUIREMENTS INDIVIDUAL AND SMALL GROUP
PLANS SOLD ON DC HEALTH LINK
CHECK-LIST**

INSTRUCTIONS: Include all required elements in the table below with the filed rates. The data elements listed in the Actuarial Memorandum should be consistent with the cover letter, if applicable.

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
1	Purpose of Filing	State the purpose of the filing. Identify the applicable law. List the proposed changes to the base rates and rating factors, and provide a general summary.	Yes	Actuarial Memo
2	Form Numbers	Form numbers should be listed in the actuarial memorandum.	Yes	Actuarial Memo
3	HIOS Product ID	The HIOS product ID should be listed in the actuarial memorandum.	Yes	Actuarial Memo
4	Effective Date	The requested effective date of the rate change. For filings effective 1/1/2017 and later, follow filing due date requirements.	Yes	Actuarial Memo
5	Market	Indicate whether the products are sold in the individual or small employer group market.	Yes	Actuarial Memo
6	Status of Forms	Indicate whether the forms are open to new sales, closed, or a mixture of both, and whether the forms are grandfathered, non-grandfathered, or a mixture of both.	Yes	Actuarial Memo
7	Benefits/Metal level(s)	Include a basic description of the benefits of the forms referenced in the filing and the metal level of each plan design.	Yes	Actuarial Memo

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
7.1	AV Value	Provide the actuarial value of each plan design using the AV calculator developed and made available by HHS.	Yes	Exhibit 1
8	Average Rate Increase Requested	The weighted average rate increase being requested, incremental and year-over-year renewal. The weights should be based on premium volume. In the small group market, please also provide weighted average rate increase requested for 2016Q1 over 2015Q1; etc.	Yes	Actuarial Memo
9	Maximum Rate Increase Requested	The maximum rate increase that could be applied to a policyholder based on changes to the base rate and rating factors, incremental and year-over-year renewal. (Does not include changes in the demographics of the covered members.)	Yes	Actuarial Memo
10	Minimum Rate Increase Requested	The minimum rate increase that could be applied to a policyholder based on changes to the base rate and rating factors, incremental and year-over-year renewal. (Does not include changes in the demographics of the covered members.)	Yes	Actuarial Memo
11	Absolute Maximum Premium Increase	The absolute maximum year-over-year renewal rate increase that could be applied to a policyholder, including demographic changes such as aging.	Yes	Actuarial Memo
12	Average Renewal Rate Increase for a Year	Calculate the average renewal rate increase, weighted by written premium, for renewals in the year ending with the effective period of the rate filing. The calculation must be performed for each HIOS product ID.	Yes	Actuarial Memo
13	Rate Change History	Rate change history of the forms referenced in the filing. If nationwide experience is used in developing the rates, provide separately the rate history for District of Columbia and the nationwide average rate history.	Yes	Actuarial Memo
14	Exposure	Current number of policies, certificates and covered lives.	Yes	Actuarial Memo

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
15	Member Months	Number of members in force during each month of the base experience period used in the rate development and in each of the two preceding twelve-month periods.	Yes	Exhibit A
16	Past Experience	Provide monthly earned premium and incurred claims for the base experience period used in the rate development and each of the two preceding twelve-month periods.	Yes	Exhibit A
17	Index Rate	Provide the index rate.	Yes	Actuarial Memo
17.1	Rate Development	Show base experience used to develop rates and all adjustments and assumptions applied to arrive at the requested rates. For less than fully credible blocks, disclose the source of the base experience data used in the rate development and discuss the appropriateness of the data for pricing the policies in the filing.	Yes	Actuarial Memo
18	Credibility Assumption	If the experience of the policies included in the filing is not fully credible, state and provide support for the credibility formula used in the rate development.	Yes	Actuarial Memo
19	Trend Assumption	Show trend assumptions by major types of service as defined by HHS in the Part I Preliminary Justification template, separately by unit cost, utilization, and in total. Provide the development of the trend assumptions.	Yes	Exhibit T
20	Cost-Sharing Changes	Disclose any changes in cost sharing for the plans between the base experience period for rating and the requested effective date. Show how the experience has been adjusted for cost-sharing changes in the rate development. Provide support for the estimated cost impact of the cost-sharing changes.	Yes	Actuarial Memo Exhibit 4
21	Benefit Changes	Disclose any changes in covered benefits for the plans between the base experience period for rating and the requested effective date. Show how the experience has been adjusted for changes in covered benefits in the rate development. Provide support for the estimated cost impact of the benefit changes.	Yes	Actuarial Memo Exhibit 4

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
22	Plan Relativities	For rate change filings, if the rate change is not uniform for all plan designs, provide support for all requested rate changes by plan design. Disclose the minimum, maximum, and average impact of the changes on policyholders. For initial filings, provide the derivation of any new plan factors.	Yes	Actuarial Memo Exhibit 3
23	Rating Factors	Provide the age and other rating factors used. Disclose any changes to rating factors, and the minimum, maximum, and average impact on policyholders. Provide support for any changes.	Yes	Actuarial Memo Exhibit 1 Exhibit 3
23.1	Wellness Programs	Describe any wellness programs (as defined in section 2705(j) of the PHS Act) included in this filing.	Yes	Actuarial Memo
24	Distribution of Rate Increases	Anticipated distribution of rate increases due to changes in base rates, plan relativities, and rating factors. This need not include changes in demographics of the individual or group.	Yes	DISB Actuarial Memo Dataset
25	Claim Reserve Needs	Provide the claims for the base experience period separately for paid claims, and estimated incurred claims (including claim reserve). Indicate the incurred period used for the base period. Indicate the paid-through date of the paid claims, and provide a basic description of the reserving methodology for claims reserves and contract reserves, if any. Provide margins used, if any.	Yes	Actuarial Memo Exhibit A Part III Act'l Memo
26	Administrative Costs of Programs that Improve Health Care Quality	Show the amount of administrative costs included with claims in the numerator of the MLR calculation . Show that the amount is consistent with the most recently filed Supplemental Health Care Exhibit or provide support for the difference.	Yes	Actuarial Memo

Number	Data Element	Requirement Description	Individual/and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
27	Taxes and Licensing or Regulatory Fees	Show the amount of taxes, licenses, and fees subtracted from premium in the denominator of your medical loss ratio calculation(c). Show that the amount is consistent with the most recently filed Supplemental Health Care Exhibit or provide support for the difference.	Yes	Actuarial Memo
28	Medical Loss Ratio (MLR)	Demonstrate that the projected loss ratio, including the requested rate change, meets the minimum MLR. Show the premium, claims, and adjustments separately with the development of the projected premium and projected claims (if not provided in the rate development section). If the loss ratio falls below the minimum for the subset of policy forms in the filing, show that when combined with all other policy forms in the market segment in District of Columbia, the loss ratio meets the minimum.	Yes	Actuarial Memo
29	Risk Adjustment	Provide rate information relating to the Risk Adjustment program. Information should include assumed Risk Adjustment user fees, Risk Adjustment PMPM excluding user fees and assumed distribution of enrollment by risk score, plan, and geographical area. Provide support for the assumptions, including any demographic changes. Provide information/study on the development of risk scores and Risk Adjustment PMPM. Provide previous year-end estimated risk adjustment payable or receivable amount and quantitative support for the amount.	Yes	Actuarial Memo

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
30	Past and Prospective Loss Experience Within and Outside the State	Indicate whether loss experience within or outside the state was used in the development of proposed rates. Provide an explanation for using loss experience within or outside the state.	Yes	Actuarial Memo
31	A Reasonable Margin for Reserve Needs	Show the assumed Margin for Reserve Needs used in the development of proposed rates. Margin for Reserve Needs includes factors that reflect assumed contributions to the company's surplus or the assumed profit margin. Demonstrate how this assumption was derived, how the assumption has changed from prior filings, and provide support for changes. If the assumption for Qualified Health Plans exceeds 3% as assumed in the risk corridor formula, justify the excess in light of the company's surplus position.	Yes	Actuarial Memo

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
32	Past and Prospective Expenses	<p>Indicate the expense assumptions used in the development of proposed rates. Demonstrate how this assumption was derived. Show how this assumption has changed from prior filings, and provide support for any change.</p> <p>Provide the assumed administrative costs in the following categories:</p> <ul style="list-style-type: none"> • Salaries, wages, employment taxes, and other employee benefits • Commissions • Taxes, licenses, and other regulatory fees • Cost containment programs / quality improvement activities • All other administrative expenses • Total 	Yes	Actuarial Memo
33	Any Other Relevant Factors Within and Outside the State	Show any other relevant factors that have been considered in the development of the proposed rates. Demonstrate how any related assumptions were derived. Show how these assumptions have changed from prior filings, and provide support for any change.	Yes	Actuarial Memo
34	Other	Any other information needed to support the requested rates or to comply with Actuarial Standard of Practice No. 8.	Yes	Actuarial Memo
35	Actuarial Certification	Signed and dated certification by a qualified actuary that the anticipated loss ratio meets the minimum requirement, the rates are reasonable in relation to benefits, the filing complies with the laws and regulations of the District of Columbia and all applicable Actuarial Standards of Practice, including ASOP No. 8, and that the rates are not unfairly discriminatory.	Yes	Actuarial Memo

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
36	Part I Preliminary Justification (Grandfathered Plan Filings)	Rate Summary Worksheet --- Provide this document with all Grandfathered plan filings. Provide in Excel and PDF format.	N/a	N/a
36.1	Unified Rate Review Template (Non-Grandfathered Filings)	Unified Rate Review Template as specified in the proposed Federal Rate Review regulation. Provide this document with all Non-Grandfathered plan filings. Provide in Excel and PDF format.	Yes	Separate Document in SERFF
37	Part II Preliminary Justification	Written description justifying the rate increase as specified by 45 CFR § 154.215(f). Provide for <i>all</i> individual and small employer group filings (whether or not they are “subject to review” as defined by HHS).	Yes	Separate Document in SERFF
38	DISB Actuarial Memorandum Dataset	Summarizes data elements contained in Actuarial Memorandum. Provide this document with all Non-Grandfathered plan filings. Provide in Excel format only.	Yes	Separate Document in SERFF
39	District of Columbia Plain Language Summary	Similar to the Part II Preliminary Justification, this is a written description of the rate increase as specified by 45 CFR § 154.215, but as a simple and brief narrative describing the data and assumptions that were used to develop the proposed rates. Provide this document for all individual and small employer group filings.	Yes	Separate Document in SERFF
40	Summary of Components for Requested Rate Change	DISB will require that issuers provide a chart listing a) any and all components of requested rate changes from the prior year; b) a quick summary/explanation of the change; and c) the actual percentage impact of the change for each component, such that the total for all components listed equals the total percentage change requested for the plan year.	Yes	Exhibit 3

Number	Data Element	Requirement Description	Individual and Small Group	
			Has the Data Element Been Included?	Location of the Data Element
41	CCIIO Risk Adjustment Transfer Elements Extract (RATE 'E')	Received directly from CCIIO; this report should be completed and submitted by the set deadline for QHP submissions, or by April 30 th of the current year, whichever is first.	Yes	Supporting Docs in SERFF
42	Additional Requirements for Stand-Alone Dental Plan Filings	Provide the following for stand-alone dental plan filings: <ul style="list-style-type: none"> • Identification of the level of coverage (i.e. low or high), including the actuarial value of the plan determined in accordance with the proposed rule; • Certification of the level of coverage by a member of the American Academy of Actuaries using generally accepted actuarial principles; and • Demonstration that the plan has a reasonable annual limitation on cost-sharing. 	N/a	N/a

CERTIFYING SIGNATURE

The undersigned representative of the organization submitting this rate filing attests that all items contained in the above checklist have been included in the filing to the best of the company's ability.

Gold

NOTE: One or more services are not subject to the deductible and have no copay. Any service with this cost-sharing structure is covered at 100% by the plan in the deductible range. NOTE: Office-visit-specific cost-sharing is applying to x-rays in office settings. NOTE: Service-specific cost-sharing is applying for service(s) with fac/prof components, overriding outpatient inputs for those service(s).

NOTE: One or more services are not subject to the deductible and have no copay. Any service with this cost-sharing structure is covered at 100% by the plan in the deductible range. NOTE: Office-visit-specific cost-sharing is applying to x-rays in office settings. NOTE: Service-specific cost-sharing is applying for service(s) with fac/prof components, overriding outpatient inputs for those service(s).

Begin Primary Care Deductible/Coinsurance After a Set Number of Copays? <input type="checkbox"/>	# Copays (1-10): <input type="checkbox"/>

Plan Description:
Name: BQ-BB
Plan HIOS ID: 41842DC0040059-01
Issuer HIOS ID: 41842

Output

Status/Error Messages: Calculation Successful.
 Actuarial Value: 91.92%
 Metal Tier: Platinum

Additional Notes: NOTE: One or more services are not subject to the deductible and have no copay. Any service with this cost-sharing structure is covered at 100% by the plan in the deductible range.

Calculation Time: 0.0508 seconds

User Inputs for Plan Parameters

- Use Integrated Medical and Drug Deductible?
- Apply Inpatient Copay per Day?
- Apply Skilled Nursing Facility Copay per Day?
- Use Separate MOOP for Medical and Drug Spending?
- Indicate if Plan Meets CSR or Expanded Bronze AV Standard?
- Desired Metal Tier: Platinum

NOTE: One or more services are not subject to the deductible and have no copay. Any service with this cost-sharing structure is covered at 100% by the plan in the deductible range. NOTE: Office-visit-specific cost-sharing is applying to x-rays in office settings. NOTE: Service-specific cost-sharing is applying for service(s) with fac/prof components, overriding outpatient inputs for those service(s).

Calculate

Status/Error Messages:
 Actuarial Value:
 Metal Tier:

Error: Result is outside of [-4, +2] percent de minimis variation.
 73.72%

Additional Notes:

NOTE: One or more services are not subject to the deductible and have no copay. Any service with this cost-sharing structure is covered at 100% by the plan in the deductible range. NOTE: Office-visit-specific cost-sharing is applying to x-rays in office settings. NOTE: Service-specific cost-sharing is applying for service(s) with fac/prof components, overriding outpatient inputs for those service(s).

RE: Proprietary and Confidential Information UnitedHealthcare Risk Adjustment Data

HIOS Issuer IDs: 21066 UnitedHealthcare of the Mid-Atlantic, Inc.; 41842 UnitedHealthcare Insurance Company;
75753 Optimum Choice, Inc.

Dear Mr. Tanhehco:

The companies listed above (collectively referred to herein as "United" in either the singular or plural forms) are submitting data for the 2018 RATEE files at the request of the Department of Insurance, Securities and Banking. United submits in confidence this carrier-specific private data and this letter applies to any submission reasonably correlating to the 2018 RATEE files.

Under state law, this carrier-specific private information is non-financial, strictly confidential proprietary commercial information and not subject to disclosure under the D.C. Code § 2-534(a), CDCR 1-406.2, and is not a public record subject to disclosure requirements under D.C. Code § 2-534. It is non-public information submitted in confidence to the insurance commissioner that would give advantage to a competitor. Disclosure of this information would be detrimental to the best interests of the public because plan issuers compete on a product strategy that entices consumers to purchase its products and increase plan membership. Knowing a competitor's strategy beforehand confers a competitive advantage to issuers with sufficient resources to adjust to the competitor's strategy before going to market instead of waiting until the next adjustment window in a market. If a filing's confidential information such as risk scores prompts an issuer to see it is the only one offering a certain type of product (e.g. a wide network metal level (platinum) or cost sharing feature (0% member cost sharing for emergency room visits)), then issuers with sufficient resources to adjust have an unfair advance opportunity to remove those plans or adjust strategies. For example, if an issuer sees the competition has an emergency room copay of \$500 but they had \$250, it can likewise adjust to \$500 before going to market, which deprives consumers of the opportunity to take advantage of issuer competitive behavior.

We respectfully request the Department refrain from disclosing United's carrier-specific information to any other entity. Disclosure may cause substantial competitive harm by giving an unfair advantage to our competitors that is specific and reasonably foreseeable. Re-disclosure would enable competitors to model the above-named company's business portfolios pertaining to these submissions and unfairly adjust their strategy before going to market instead of waiting until the next opportunity to adjust in the relevant market. Accordingly, we respectfully request carrier-specific information not be redisclosed to any other person, including state or federal regulatory agencies, unless United consents in writing to the disclosure and the recipient agrees in writing prior to receipt to maintain the confidential proprietary and/or trade secret nature of the information.

Thank you in advance for your cooperation with this request.

Sincerely,

A handwritten signature in black ink that reads 'Carol Tobiassen'.
