

Corporate Overview of The Lewin Group

The Lewin Group helps clients to:

- Improve policy and expand knowledge about health and human services systems;
- Enact, run, and evaluate programs to enhance delivery and financing of health care and family services;
- Deal with shifts in health care practice, technology and regulation;
- Optimize performance, quality, coverage, and health outcomes; and
- Create strategies for institutions, communities, governments and private sector organizations to make health care and human services systems more effective.

Lewin's more than 140 consultants are drawn from industry, government, academia, and the health professions. They are educated in health and human services research, business management, public policy, community health, law, life sciences, and other disciplines. Many are national authorities whose approaches to advancing health care and human service systems stem from personal experience with imperatives for change.

Lewin clients include federal, state, county, and municipal governments; hospitals and health systems; health plans, insurers, and other purchasers; health care trade and professional associations; philanthropic foundations that target health care and human resources; life sciences companies; consumer and community groups; law firms; and physician groups.

The Lewin Group has extensive experience in the evaluation and analysis of insurer surplus, having previously analyzed insurer surplus and/or reserves for the Commonwealth of Pennsylvania, the State of Rhode Island, the State of Washington, and several Blue Cross Blue Shield plans.

The Lewin Group is an Ingenix company. Ingenix, is a wholly-owned subsidiary of UnitedHealth Group. The Lewin Group operates with editorial independence and provides its clients with the very best expert and impartial health care and human services policy research and consulting services.
