DC CareFirst BlueCross BlueShield has been overcharging its subscribers hundreds of millions of dollars. How did they accrue a surplus of \$687 million? As a CFBCBS subscriber I find this to be an outrageous rip off and strongly suggest that Commissioner Purcell demand what she determines would be an equitable refund to subscribers especially in light of the fact that CFBCBS is a nonprofit corporation. Due to the fact that I have life threatening and potentially lethal health problems the only health insurance I can obtain is from CFBCBS so I'm stuck. Believe me if I could shop around I would. I look forward to hearing what your decision is.
